Wisconsin State Representative André Jacque (right) received an award Wednesday morning from Wisconsin's Business Voice's Director of Tax and Transportation Policy Jason Culotta. Jacque accepted the award, "Working for Wisconsin," at Coating Excellence International in Wrightstown. The award recognized Jacque for his pro-business leadership in the legislature. In particular, Jacque was lauded for his part in the area of lawsuit reform. "We have a great workforce here in Wisconsin, but government can get in the way," Jacque commented.
