### *Analysis by the Legislative Reference Bureau*

This bill increases the general fund supported bonding authority of the building commission by \$59,500,000 and enumerates the authorization of the completion of the capitol restoration project in the 1997–99 authorized state building program.

Currently, some furnishings that are or were associated with the current state capitol or a prior capitol and that have historical significance have been temporarily relocated outside of the capitol building to permit restoration of the building. Other such furnishings are in the possession of state agencies or authorities, or other persons.

This bill vests title in the department of administration (DOA) to all furnishings that are or were associated with the current capitol building or a prior capitol and that have historical significance if the furnishings are in the possession of any state agency or authority. The bill also permits the joint committee on legislative organization to direct DOA to take possession of any such furnishing. The bill permits DOA to acquire by purchase or gift any furnishing that has historical significance and that was associated with the current or a prior capitol. The bill permits DOA to restore any furnishing in its possession if so directed by the committee. Under the bill, DOA is directed to locate furnishings at the places in the

capitol specified by the committee. The bill directs DOA to procure suitable replacement furnishings for any furnishings which DOA takes from state agencies or authorities. The bill appropriates a sum sufficient from general purpose revenue to carry out the functions vested in DOA by the bill.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
