Rep. Spreitzer co-hosts informational DNR briefing on high capacity wells

MADISON –On Saturday, April 11, State Representative Mark Spreitzer (D-Beloit) and State Senator Janis Ringhand (D-Evansville) co-hosted an informational presentation on high capacity wells in the Town of Beloit. DNR Water Use Section Chief Eric Ebersberger presented and answered questions from among the nearly fifty attendees.

“I am happy to have been able to help facilitate this dialogue, and I’m pleased with how many community members attended,” Rep. Spreitzer said. “It clearly shows that high capacity wells are a policy area in need of close attention and study moving forward.”

Sen. Ringhand and Rep. Spreitzer organized the presentation in response to questions from local residents about high capacity wells in the area. Residents raised questions about the permitting process for allowing a high capacity well and potential impacts on groundwater and existing residential wells.
