Rep. Quinn Makes K-12 Education Top Priority

Madison – Representative Romaine Quinn (R-Rice Lake) released the following statement regarding his state budget priorities following an announcement from the non-partisan Legislative Fiscal Bureau (LFB). The LFB memo stated that revenue projects are on target for the biennial budget.

“I am pleased that despite a challenging national forecast, Wisconsin’s future growth remains at 4-5 percent. Wisconsin is better off today because of the prudent financial decisions made in the past two budgets. Our economy is stronger, new businesses are opening, and more people are working.

“As I continue to hear from my constituents and work to make our next two-year budget the best that it can be, **investing in our K-12 education system remains one of my top priorities**. Education is the key to a better trained workforce and successful future for our children. A vast majority of our school districts have done their due diligence over the years and have been frugal with their local budgets. This makes it incredibly hard to deal with further cuts, and I will do everything I can to continue to support education in our state.

“As we continue to move forward with the budget process, I am committed to find ways to invest in public education, grow our state’s workforce, and protect taxpayers.”
