

TREIG E. PRONSCHINSKE

STATE REPRESENTATIVE • 92nd ASSEMBLY DISTRICT

For Immediate Release:
December 13th, 2019

Contact: Rep. Treig E. Pronschinske
(608) 266-7015

Wisconsin Continues to Dominate in Manufacturing Nationwide

Since Wisconsin's founding in 1848, industry has been a made a large economic footprint on our great state. Many of our ancestors worked in manufacturing over the years as they brought their skills from overseas to supply our market with raw materials such as timber and using the extensive waterways and eventually railroads to transport the material.

There are many great opportunities and benefits for Wisconsinites to join the manufacturing workforce and even learn more about the industry in general. With a great history or hard work in our state, Wisconsin continues to be one of the leaders across our nation in manufacturing. Innovation and dedication are driven by the wide variety of productions Wisconsin has to offer including dairy, meat packing, brewing, electronics, power tools, and lumber and milling among many others.

Our youth have the opportunity to receive internships and apprenticeships in these industries as well. There has been a push for our youth to go to college to receive a degree with our manufacturing industry being left behind while putting thousands of young people into massive amounts of debt. Not all careers in manufacturing require a four-year degree and some do not even require a two-year degree with many great occupations available for those that do not wish to attend a university.

As Wisconsin continues to be a leader in manufacturing, it is great to see that the Wisconsin Manufacturing and Technology Show (WIMTS) was held this year from October 8th to October 10th at the Wisconsin State Fair Park and there were over 4,000 individuals in attendance to see over 100,000 square feet of exhibits displaying cutting edge concepts of manufacturing and technology.

If you want to learn more about the manufacturing industry here in Wisconsin or even consider employment, please visit Job Center of Wisconsin at <https://jobcenterofwisconsin.com/>.

As always, feel free to contact my office with questions, comments, or concerns.
