## **Rep. Allen proposes cell tower siting restriction**

Representative Scott Allen (R-Waukesha) is proposing a bill that authorizes local governments to prohibit the placing of a new mobile service support structure within 750 feet of a boundary of a low density residential zoning district.

This bill was brought about by complaints from dozens of Waukesha residents who opposed a tower placement along Racine Ave. last summer.

“The law change by the previous legislature went too far in the interest of cell tower companies,” said Rep. Allen. “This bill would give local communities a little more say in where towers can be located.”

Rep. Allen has begun circulating the bill for co-sponsorship and will introduce the bill next week.
