## **Statement from Rep. Scott Allen** (R-Waukesha)

### **Mukwonago One of the Safest Places to Live in Wisconsin**

SafeWise is a national security organization that analyzes crime data from the FBI. They compare this data with information on population and demographics in each community to determine the number of violent and property crimes committed per one thousand residents. These numbers are used to compile a list of the safest communities in a calendar year. I am proud to represent Mukwonago Town, which was second place on the 2015 list.

With only eight incidents of violent crime recorded, less than one for every thousand residents, and with only 3.59 property crimes per thousand residents, Mukwonago's citizens and police force deserve applause. In fact, the report from SafeWise states that "residents of Mukwonago can be proud to live in a city with an active Neighborhood Watch program where everyone pitches in to help keep their town safe," and calls the town "a secure and welcoming place to call home."

None of this would be possible without the hard work of a much-appreciated police force and the cooperation of residents who care about the safety of their neighbors and who respect law enforcement. Mukwonago's security is not the result of any one factor, and everyone who lives and works there should feel proud to have contributed to creating such a safe environment. It is every legislator's hope to represent such an exemplary community. Thank you for your dedication to the well-being of those around you.
