June 13, 2009

**Representative Bob Ziegelbauer Statement on Voting against AB75,  
the Biennial Budget Bill**

"This tremendously disappointing budget proposal recklessly tramples on the business climate in Wisconsin, putting government ahead of people, threatening the future prosperity of our State for a generation. At this time of unique economic stress we ought to be cutting back the burden of government on people not adding to it with massive new spending programs that will require regular tax increases."
