October 13, 2009

**Representative Bob Ziegelbauer Statement on
Opposing AB 287, raising the tax on beer**

“I am unalterably opposed to increasing the tax on beer. Regressive proposals like this disproportionately increase the burden on wage earners; the money won't effectively be segregated, we all know that; and by adding to the tax burden on yet another Wisconsin industry it would further weaken the already severely damaged business climate in our state, hurting innocent employees.

“The focus of this Legislature ought to be: expanding jobs, not taxing them; rolling back cumbersome regulations, not expanding them; and letting people keep their own hard earned money when they can, not coming up with new excuses for taking more of it.

“With all due respect to the good intentions of its proponents, raising this tax is a horrible idea.”
