### Rep. Ziegelbauer Statement on Enactment of Health Savings Account Tax Deduction Law

Today, Governor Scott Walker signed into law Special Session Senate Bill 2, federalizing the tax treatment of Health Savings Accounts.

“This is good news for taxpayers throughout our State. HSA’s are an important tool to stretch limited health care dollars further for Wisconsin workers and small businesses. At Manitowoc County, HSA’s have empowered our employees to help us contain health care costs while building savings for their families’ future. This is an important building block in the effort to repair our economy.”
