Van Roy Applauds Passage of Taxpayer Protection Bill **Bill Would Reverse the so-called "Newark Decision"**

MADISON – In response to today's vote by the State Assembly to pass Senate Bill 122, which would reverse the effects of the so-called "Newark Decision," and prevent a multi-billion dollar property tax shift onto Wisconsin homeowners, State Representative Karl Van Roy (R-Howard) released the following statement:

"Closing this tax loophole is critical to protecting overtaxed families from paying even more in property taxes. Homeowners and small business owners already have a high enough tax burden without having to shoulder the costs that are rightfully due from industry. Today, members of both political parties joined to do the right thing for the taxpayers," stated Van Roy.
