Van Roy Praises Boost to Heating Assistance

MADISON – Rep. Karl Van Roy (R-Howard) issued the following statement on the passage of legislation which passed Thursday, March 2, to increase home heating assistance by \$6 million.

“With increased gas costs, increased energy costs, and cold temperatures, it has been a tough year for everyone. I am pleased legislators and the Governor could come together to help working Wisconsin families keep warm this winter. By passing this bipartisan legislation, we are extending relief to another 40,000 households throughout the state. The agreement also reflects the good work we can get done when we put politics aside and cooperate for the betterment of Wisconsin.”
