### *Analysis by the Legislative Reference Bureau*

This bill directs the Department of Public Instruction (DPI) to promulgate rules establishing model academic standards in mathematics, English, science, advanced mathematics, social studies, and arts. The bill requires DPI, in promulgating each rule, to appoint an advisory committee consisting of education professionals and members of the public and to hold a public hearing in each of the state's congressional districts.

The bill requires that the academic standards established by the rules:

1. Be clean, concise, objective, measurable, and grade-level appropriate;
2. Not require a particular teaching method or curriculum;
3. Are consistent with the U.S. and Wisconsin Constitutions; and
4. Raise pupils' academic performances.

Under the bill, the model academic standards are phased in over a six-year period beginning with mathematics in the 2016-17 school year. Each rule sunsets six years after its effective date.

Finally, the bill prohibits DPI from establishing academic standards except as provided in the bill and prohibits DPI from revising or repealing the rules promulgated under the bill.
