NATURAL RESOURCES -- FISH, WILDLIFE, AND RECREATION

Fish and Wildlife Account Condition
[LFB Paper #470]

Motion:

Move to require DNR to, in consultation with stakeholders, including hunters, anglers, trappers, and conservationists, report to the Joint Committee on Finance by January 1, 2017, on a plan to address the imbalance in the fish and wildlife account. Require the report to include, at a minimum, recommendations for program reductions and hunting and fishing fee increases necessary to bring the ongoing revenue and expenditure level into balance.
