

ADMINISTRATION -- GENERAL AGENCY PROVISIONS

Transfer of Building Program Assessment Revenue to General Fund

Motion:

Move to transfer \$5,000,000 PR from the Department of Administration's capital planning and building construction services appropriation to the general fund in 2015-16.

Note:

Revenue to the capital planning and building construction services appropriation is derived from a 4% fee assessed on most state building project budgets. The appropriation funds the Department's Division of Facilities Development, which staffs the Building Commission. The Division provides capital planning and building construction services in managing state building program construction projects.

[Change to Bill: \$5,000,000 GPR-Rev]
