Payments for Municipal Services Provided to Veterans Homes

Motion:

Move to provide \$150,000 PR in 2015-16 in a biennial appropriation for making payments to towns, cities, or villages that provide municipal services to state veterans homes. Authorize the Department to transfer unappropriated balances from other PR appropriations for the state veterans homes to the municipal payments appropriation. Delete the appropriation on July 1, 2017.

Note:

This motion would establish a new program, funded from unappropriated PR balances in the Department's state veterans homes appropriations, for providing payments on a one-time basis to municipalities for services provided to state veterans homes.

[Change to Bill: \$300,000]
