

WISCONSIN TECHNICAL COLLEGE SYSTEM

Review of Performance-Based Funding Formula
[LFB Paper #721]

Motion:

Move to approve Alternatives A2 and B1 and to require that the Wisconsin Technical College System Board review the performance-based funding formula and submit a report to the Joint Committee on Finance. Specify that the report would include possible changes to the performance-based funding formula and additional performance criteria that could be included.

Note:

This motion specifies that the percentage of general aid distributed under the performance based funding formula would remain at 30% in 2017-18 and thereafter [Alternative A2]. The motion also approves the additional performance funding criteria proposed by the Governor that would allocate funding based on the development and implementation of a policy to award course credit for relevant educational experience or training not obtained through an institution of higher education, including skills training received during military service [Alternative B1].

Additionally, the motion requires the System Board to review the performance-based funding formula and issue a report to the Committee regarding changes that could be made to the formula and additional performance criteria that could be considered.
