

WISCONSIN STATE REPRESENTATIVE

Dianne Hesselbein

79TH ASSEMBLY DISTRICT

November 22, 2013

Rep. Hesselbein Common Core Standards Hearings/Ideas:

- Good opportunity to clear up misconceptions:
 - No retinal scans
 - Clearly the floor, not the ceiling
- Keep CCSS.
- Interesting to learn all those in favor of CCSS, i.e., Fordem Institute.
- The military is strongly in favor of CCSS due to reassignments families frequently face.
- Freedom of speech concerns. A few teachers who spoke against Common Core seemed reluctant to tell us what school district they are from. I am looking into school district handbooks to see if this is a lack of free speech.
- Local control at school districts must be protected.
- Review in 7 years is a good idea.
