Doors Open: 5:30 pm • Program 6:00 pm - 8:00 pm

Join us for this  
**FREE  
Program**

This FREE program will focus on the “human side” of cancer and the way it impacts people’s lives and the lives of those around them.

- Cancer and Children** - Dr. Rich Tower, Children’s Hospital of Wisconsin and the Medical College of Wisconsin will present on children’s cancer including the issues surrounding children going through a cancer journey.
- Cancer and Women** - This portion of the evening will focus on the issues and feelings that women can face while going through cancer.
- Cancer and the Family** - Jennifer Blissitt, BSN, RN works as the Supportive Care Nurse Clinical Coordinator at Froedtert & the Medical College of Wisconsin, and will discuss the issues families face while a loved one is going through cancer treatment.

Be sure to bring your sister, mother, or friend with you to this FREE PROGRAM!

The mission of the foundation is to educate and empower women to be proactive in the prevention, diagnosis and treatment of cancer. All of our programs are FREE to the community. Please register by calling 262/237-0619 or visit us online at [JaneCremerFoundation.org](http://JaneCremerFoundation.org)
