

ADMINISTRATION -- GENERAL AGENCY PROVISIONS

Lean Government Positions and Funding
[LFB Paper #102, Substitute Alternative]

Motion:

Move to adopt Alternative 1 (the Governor's recommendation) regarding lean government, modified to delete statutory provisions that would create an Office of Lean Government.

Note:

The motion would approve the Governor's recommendation to provide funding and positions for the lean government initiative, but would delete statutory provisions related to the Office. As modified by the motion, the bill would:

- a. Convert \$119,400 and 1.0 position annually from GPR to PR, funded from DOA's materials and services to state agencies appropriation;
- b. Reallocate \$228,900 PR and 2.0 PR positions annually from DOA's IT services to state agencies appropriation to DOA's materials and services to state agencies appropriation for the provision of lean government services to state agencies; and
- c. Eliminate a program and associated funding of \$200,000 GPR annually that reimburses businesses for assisting local governmental units in establishing efficiency programs.
