

JUSTICE

Law Enforcement Officer Involved Death Investigations
[LFB Paper #422, Substitute Alternative]

Motion:

Move to provide the Department of Justice \$305,300 PR in 2015-16, \$329,800 PR in 2016-17, and 4.0 PR positions annually to support 3.0 special agent positions and 1.0 program and policy analyst position to support workload related to officer-involved death investigations and investigations into non-fatal officer-involved incidents. Program revenue for the positions would be supported by the crime laboratory and drug law enforcement surcharge and the DNA surcharge. In addition, modify current statutory language associated with the drug law enforcement, crime laboratories, and genetic evidence activities PR appropriation to authorize the appropriation to support criminal investigative operations.

Note:

This motion would provide the Department of Justice funding to support 4.0 PR positions to support workload related to officer-involved death investigations and investigations into non-fatal officer-involved incidents (3.0 special agents and 1.0 program and policy analyst). Program revenue for the positions would be supported by the crime laboratory and drug law enforcement surcharge and the DNA surcharge. Further, this motion would modify the statutory language associated with the drug law enforcement, crime laboratories, and genetic evidence activities PR appropriation to authorize the appropriation to support criminal investigative operations. Under current law, the appropriation is authorized to support drug law enforcement, drug law violation prosecution assistance, and activities of the state's crime laboratories.

[Change to Bill: \$635,100 PR and 4.0 PR positions]
