

NATURAL RESOURCES -- ENVIRONMENTAL QUALITY

Nonpoint Source Grants and Contracts  
[LFB Paper #141]

Motion:

Move to adopt the following alternatives:

- A2d to provide \$100,000 each year for grants under the targeted runoff management (TRM) and notice of discharge/notice of intent (NOD/NOI) grant programs;
- A3b to convert the current biennial appropriation for TRM-NOD grant funding under Alternative A2d from the general fund to the nonpoint account of the environmental fund;
- B2a to restore \$200,000 nonpoint SEG each year for urban nonpoint source (UNPS) and municipal flood control (MFC) grants;
- B3a and B3b to specify a recipient match of at least 50% for UNPS local assistance (planning) grants and all MFC grants; and
- C2c to delete the Governor's recommendation, and restore \$770,000 nonpoint SEG each year for nonpoint source contracts.

In addition, specify all funding restored is one-time financing in the state budget system.

---

Note:

All funding restored by the motion would be removed from base funding as a standard budget adjustment in the 2017-19 biennial budget bill.

[Change to Bill: \$2,140,000 nonpoint SEG]
