### *Analysis by the Legislative Reference Bureau*

This bill directs the Wisconsin Economic Development Corporation (WEDC) to develop and implement a program to identify businesses that require workforce training in order to begin or expand operations in this state. WEDC must also determine whether the district board of the technical college district in which an identified business is or will be located is able to provide the needed workforce training at no cost to the business for a specified period.

The bill authorizes a technical college district board to obtain a state trust fund loan for the purpose of providing the workforce training described above and authorizes WEDC to repay the loan on behalf of the technical college district. The training may occur at a district facility or at the business.
