ALWAYS

Dear Mr. Cheobald;

The term is over and with your outstanding supply of reference material I was able to put together my term paper on the reorganization in fine fashion. The professor liked my work and found the methods used by Wisconsin most interesting.

Thank you very much for your outstanding assistance and selection of material. Without it I would have been hard pressed to locate the needed material.

My final grade was an A.

So thank you and your staff again for your help and information provided.

Sincerely yours  
LCDR James B. Overton
