

Wisconsin Legislature – Legislative Technology Services Bureau

Position Title: Software Engineer
Location: 17 W. Main Street, Suite 200, Madison WI
Schedule: Full Time

Introduction

The Legislative Technology Services Bureau (LTSB) provides information technology services and support for the Wisconsin Legislature. LTSB is a **nonpartisan** legislative service agency located on the Capitol Square in downtown Madison, Wisconsin. We provide an innovative and cooperative atmosphere with many opportunities for professional growth.

The LTSB is accepting applications to recruit a skilled and enthusiastic *Software Engineer* on its Software Developer Team. Salary is dependent on experience and qualifications.

Position Description

We're looking for a fellow problem-solver to join the Software Development Team on the Bill Drafting Group. This group is responsible for developing and maintaining the Wisconsin Legislature's bill drafting system.

As a member of the Bill Drafting group, you will be part of designing, developing, and supporting the applications and tools used to draft, proof, edit, and manage legislative documents. The applications include a text editor, a document repository, and many custom tools. They are written in a mix of .NET and LISP. You will be directly involved in improving and automating the bill drafting process.

We are seeking candidates who are legally authorized to work in the United States and will not require employer visa sponsorship now or in the future. A background check will be conducted on any finalist prior to an offer of employment.

Knowledge/Experience/Skills Required

- Deep knowledge of at least one programming language
- Formal education in computer science and/or equivalent professional experience
- Strong problem solving ability
- Attention to detail
- Capability to work independently or as part of a team
- Commitment to excellent customer service
- Ability to work in a nonpartisan environment
- Able to learn new technologies and tools

Knowledge/Experience/Skills Desired

- Regular expressions
- Relational Database development
- UI design

How to Apply

Please send your resume and cover letter to LTSBHR@legis.wisconsin.gov

Your cover letter should address the following two items.

- Describe how your education and/or work experience relate to this position.
- Describe your involvement in a complex software development project.
