Statement on Events in Dallas

I ask that everyone pray for the officers' families who gave their lives to protect the rights of others. Please pray for all emergency service personnel to keep all of our guardians under God's protection. Pray that in this time of increased tension between police and certain communities, that God's wisdom and guidance will keep all lives safe, and reduce senseless violence.

We must remember that we are all on the same side. Both the community and law enforcement want a peaceful environment, respecting every person's rights and the law. Most importantly, each of us wants to return safely to their loved ones at the end of the day. Too many have not lately.
