Senator Testin's Statement on the Beginning of the Budget Process

"The Governor's budget address is the start of a process. I was encouraged to hear about the planned investments in public education, workforce development, and rural broadband, as well as opportunities to decrease taxes. I look forward to delving into the process and working to craft a budget that is fair and forward-looking for the people of Western and Central Wisconsin.

Discussion of the budget doesn't begin and end with elected officials in the state capitol. Over the next few months, I will be holding numerous listening sessions to get input from the people I represent. Together, we can build a brighter future for Wisconsin."
