State Senator Frank Lasee's Statement on Worker Freedom Legislation It's Time to Give Workers the Right to Choose

Madison - State Senator Frank Lasee (R-DePere) issued the following statement regarding his support for an Extraordinary Session to pass Right to Work legislation.

"Giving workers the freedom to choose whether or not to join a union is the right thing to do. No one should have to join any organization and pay dues to have a job. In addition, economic data shows it is proven to work in other states. Right to Work states have stronger economic growth, faster worker pay growth and are more attractive to businesses that are deciding to start, expand or move. This legislation will increase economic activity in Wisconsin and will move our state forward.

"I have been a supporter of Right to Work for some time, and I am glad my colleagues are calling for an Extraordinary Session for this important legislation.

"Now is the right time to pass Worker Freedom legislation—It's right for workers, it's right for Wisconsin's business climate, and it's right to further the bold reforms we were elected for and continue Wisconsin's prosperity, creating more opportunities for more people."
