Sen. Gudex Statement on Oshkosh Defense Contract Award

Contract will bring stability to Oshkosh Corp. for years to come

Madison-Today the Department of Defense awarded the Joint Light Tactical Vehicle contract to Oshkosh Defense. The \$6.7 billion contract is expected to support thousands of jobs in the Fox Valley.

“This is great news for the Oshkosh Corporation and the entire Fox Valley area. The Oshkosh Corporation and its employees play an integral part in the economy for our state. This new contract should be very beneficial to the company, its investors, and those who were laid off as a result of defense contract spending reductions. I’m encouraging those looking for work to apply for the jobs that this contract award is sure to provide. I’m also happy that we have worker training programs available all across the state. The Wisconsin Fast Forward Program is in place and will be available to help get those looking for these jobs the training that this new opportunity will offer,” said Senator Rick Gudex (R-Fond du Lac).
