## **Statement from Sen. Wanggaard on Racine Teachers Unions Press Conference**

“As the next year’s school district budget is set, it is important to have a fully participating board to break ties and ensure quorums.

This proposal fills a vacant school board seat and breaks a 35-time deadlock on the school board – that is all. There is no “hidden agenda.” This seat and all others will be refilled again in April.

It’s time for the Racine Teachers Unions to recognize that education is about student learning and not about protecting their fiefdoms.”
