In survival mode, biotech startup VitalMedix leaves Minnesota for Wisconsin

July 10, 2009 by [Chris Seper](#)

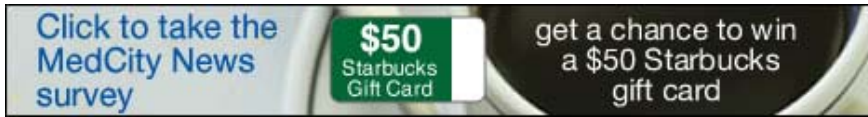

[3 Comments](#)

MINNEAPOLIS, Minnesota — It's a sign of tough times for promising technologies. The biotech startup [VitalMedix](#), which is developing a drug to protect bodies from severe blood loss, is leaving Minnesota for Wisconsin to take advantage of a state tax-credit program.

“Any start up has to look for the most fertile ground for investment,” President Jeffrey Williams said. “Right now Wisconsin has a better opportunity than does Minnesota.”
