LEGISLATIVE AUDIT BUREAU

The Legislative Audit Bureau supports the Legislature in its oversight of Wisconsin government and its promotion of efficient and effective state operations by providing nonpartisan, independent, accurate, and timely audits and evaluations of public finances and the management of public programs. Bureau reports typically contain reviews of financial transactions, analyses of agency performance or public policy issues, conclusions regarding the causes of problems found, and recommendations for improvement.

Reports are submitted to the Joint Legislative Audit Committee and made available to other committees of the Legislature and to the public. The Audit Committee may arrange public hearings on the issues identified in a report and may introduce legislation in response to the audit recommendations. However, the findings, conclusions, and recommendations in the report are those of the Legislative Audit Bureau.

The Bureau accepts confidential tips about fraud, waste, and mismanagement in any Wisconsin state agency or program through its hotline at 1-877-FRAUD-17.

March 20, 2020

Joe Chrisman State Auditor

Senator Robert Cowles and Representative Samantha Kerkman, Co-chairpersons Joint Legislative Audit Committee State Capitol Madison, Wisconsin 53702

Dear Senator Cowles and Representative Kerkman:

We have completed our annual financial and compliance audit of the State of Wisconsin. This audit satisfies state agencies' audit requirements under the federal Single Audit Act of 1984, as amended, and of the federal Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The audit also assists us in fulfilling our audit responsibilities under s. 13.94, Wis. Stats.

Our report contains the auditor's reports on internal control over financial reporting and on compliance with program requirements, and our audit opinion on the State of Wisconsin's Schedule of Expenditures of Federal Awards. In fiscal year (FY) 2018-19, state agencies administered \$12.4 billion in federal financial assistance. We qualified our opinion on compliance related to cash management requirements for three federal programs.

We tested internal controls and compliance with laws and regulations for 16 federal programs that were selected for review using risk-based assessment criteria established by the federal government and specified in Uniform Guidance. Although state agencies generally complied with federal requirements, we made 9 recommendations to improve administration of federal programs.

We also followed up on the status of corrective actions to address prior audit findings reported in our FY 2017-18 single audit report (report 19-3). We also report new and continuing internal control deficiencies and areas of federal noncompliance. The federal government will work with state agencies to resolve the new and continuing concerns we identified.

We appreciate the courtesy and cooperation extended to us by state agency staff during our audit. Agency responses to individual findings are included within the agency chapters. As required by Uniform Guidance, agency corrective action plans to address these findings are included separately in the auditee section of this report.

Respectfully submitted,

Yoe Chrisman State Auditor

JC/CS/ss

Introduction =

Wisconsin state agencies administered \$12.4 billion in federal financial assistance during fiscal year (FY) 2018-19 including \$11.2 billion in cash assistance, \$945.8 million in noncash assistance, and \$179.6 million in outstanding loan balances. As a condition of receiving federal funds, state agencies must meet the audit requirements of the federal Single Audit Act of 1984, as amended, and of the federal Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). We performed this audit for FY 2018-19 at the request of state agencies that administered federal financial assistance and to assist us in fulfilling our audit responsibilities under s. 13.94, Wis. Stats. We focused our audit on the internal controls over 16 selected federal programs and tested compliance with laws and regulations related to these programs.

In performing this audit, we are required by federal rules to:

- render an opinion on the State's basic financial statements;
- issue a report on the State's internal control and compliance related to financial reporting; and
- issue a report on the State's compliance with requirements applicable to each major program, on its internal control over compliance, and on its Schedule of Expenditures of Federal Awards.

Our opinion on the State's FY 2018-19 financial statements was included in the State's Comprehensive Annual Financial Report (CAFR), which was issued by the Wisconsin Department of Administration (DOA) in December 2019 and is available

on DOA's website. The other required auditor's reports, along with the agencies' responses to our findings and their corrective action plans, are included in this single audit report. This single audit report, along with other required information, has been submitted to the federal government as required by Uniform Guidance.

As shown in Table 1, the ten largest programs accounted for 83.7 percent of the \$12.4 billion in federal financial assistance state agencies administered during FY 2018-19.

Table 1

State of Wisconsin Expenditures of Federal Funds¹ FY 2018-19

	Primary		Percentage
Federal Program	Recipient	Expenditures	of Total
Medicaid Cluster	DHS	\$ 5,500,992,064	44.5%
Highway Planning and Construction Cluster	DOT	996,871,459	8.1
Student Financial Assistance Cluster	UW System	983,123,395	7.9
Supplemental Nutrition Assistance Program (SNAP)	DUC	857,176,765	()
Cluster	DHS		6.9
Research and Development Cluster	UW System	590,105,267	4.8
Unemployment Insurance ²	DWD	454,905,892	3.7
Child Nutrition Cluster	DPI	262,240,166	2.1
Children's Health Insurance Program (CHIP)	DHS	244,311,237	2.0
Temporary Assistance for Needy Families (TANF) Cluster	DCF	241,584,508	1.9
Special Education Cluster (IDEA)	DPI	226,953,122	1.8
Subtotal		10,358,263,875	83.7
Other Federal Programs		2,015,786,145	16.3
Total		\$12,374,050,020	100.0%

¹ Includes cash assistance; noncash assistance, such as food commodities; and outstanding loan balances.

² In accordance with federal requirements, consists of insurance benefits paid from employer contributions and direct federal funding.

The Department of Health Services (DHS) is responsible for the Medicaid Cluster, which is the largest federal program administered by the State. In addition, DHS disbursed more than \$857.2 million in federal funds and benefits under the Supplemental Nutrition Assistance Program (SNAP) Cluster for Wisconsin's FoodShare program and \$244.3 million under the Children's Health Insurance Program (CHIP).

The Department of Transportation (DOT) is responsible for administering the Highway Planning and Construction Cluster, which was the second-largest federal program administered by the State during FY 2018-19.

The University of Wisconsin (UW) System administered federal student financial assistance totaling \$983.1 million under the Student Financial Assistance Cluster, which was the third-largest federal program administered by the State during FY 2018-19. UW System also disbursed \$590.1 million under a variety of research and development grants.

Other state agencies administered other large federal programs, including:

- the Department of Workforce Development (DWD), which expended funds under the Unemployment Insurance (UI) program;
- the Department of Public Instruction (DPI), which provided funds to local schools and other entities under the Child Nutrition Cluster and the Special Education Cluster (IDEA); and
- the Department of Children and Families (DCF), which expended funds under the Temporary Assistance for Needy Families (TANF) Cluster.

Uniform Guidance establishes the process for selecting the grant programs to be audited. Uniform Guidance categorizes federal programs as "type A" (large programs) and "type B" (smaller programs). For the State, type A programs had expenditures of \$30.0 million or more in federal funds. The type A and B programs selected for audit were those determined to be subject to a higher risk of noncompliance based on the risk factors established by Uniform Guidance.

The audit of FY 2018-19 focused on the eleven type A programs and five type B programs listed in Section I of the Schedule of Findings and Questioned Costs. These programs were administered by seven state agencies and accounted for 51.2 percent of the \$12.4 billion in federal financial assistance administered by state agencies. Table 2 shows the amount of federal financial assistance administered by each state agency.

We also followed up on the status of corrective actions to address prior audit findings reported in our FY 2017-18 single audit report (report 19-3). Our FY 2018-19 single audit report includes those findings that are required to be reported under Uniform Guidance, including findings related to the audit of the State's financial statements. In addition, we noted certain additional internal control or compliance matters that we conveyed to agency management in separate communications.

Table 2

Summary Schedule of Expenditures of Federal Awards by Wisconsin State Agency for the Year Ended June 30, 2019

Auditor's Report -

STATE OF WISCONSIN | Legislative Audit Bureau

22 East Mifflin St., Suite 500 • Madison, WI 53703 • (608) 266-2818 • Hotline: 1-877-FRAUD-17 • www.legis.wisconsin.gov/lab

Joe Chrisman State Auditor

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters

Honorable Members of the Legislature

The Honorable Tony Evers, Governor

We have audited the financial statements and the related notes of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wisconsin, which collectively comprise the State's basic financial statements, as of and for the year ended June 30, 2019, and have issued our report thereon dated December 20, 2019.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, which is issued by the Comptroller General of the United States. The basic financial statements and related auditor's opinions have been included in the State of Wisconsin's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019.

Our report includes a reference to other auditors who audited the financial statements of the Environmental Improvement Fund, the University of Wisconsin (UW) System Fund, the College Savings Program Trust Fund, the Wisconsin Housing and Economic Development Authority, the UW Hospitals and Clinics Authority, and the UW Foundation, as described in our report on the State of Wisconsin's basic financial statements. The financial statements of the Environmental Improvement Fund, the UW System Fund, the College Savings Program Trust Fund, and the Wisconsin Housing and Economic Development Authority were audited in accordance with auditing standards generally accepted in the United States of America and Government Auditing *Standards*. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that were reported on separately by those auditors. Although the financial statements of the UW Hospitals and Clinics Authority and the UW Foundation were audited in accordance with auditing standards generally accepted in the United States of America, they were not audited in accordance with *Government Auditing* Standards and, accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the UW Hospitals and Clinics Authority or the UW Foundation.

Internal Control over Financial Reporting

Management of the State of Wisconsin is responsible for establishing and maintaining effective internal control over financial reporting (internal control). In planning and performing our audit of the financial statements, we considered the State's internal control to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the

10 - - - AUDITOR'S REPORT

effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent misstatements, or to detect and correct misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the State's basic financial statements will not be prevented, or that a material misstatement will not be detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, we identified certain deficiencies in internal control that we consider to be a material weakness or significant deficiencies.

We consider the deficiency in internal control described in Section II of the Schedule of Findings and Questioned Costs as Finding 2019-005 to be a material weakness. We consider the deficiencies in internal control, described in Section II of the Schedule of Findings and Questions Costs as Findings 2019-001 through 2019-004 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Responses to Findings

Agency-specific responses to the findings identified in our audit are described in Section II of the Schedule of Findings and Questioned Costs. Agency-specific corrective action plans for the findings identified in our audit are included in the Corrective Action Plans chapter. The responses and corrective action plans were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be used when considering the State's internal control and compliance. The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. Accordingly, this report is not suitable for any other purpose.

Auditor's Reports on Federal Programs =

STATE OF WISCONSIN | Legislative Audit Bureau

22 East Mifflin St., Suite 500 • Madison, WI 53703 • (608) 266-2818 • Hotline: 1-877-FRAUD-17 • www.legis.wisconsin.gov/lab

Joe Chrisman State Auditor

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by Uniform Guidance

Honorable Members of the Legislature

The Honorable Tony Evers, Governor

Report on Compliance for Each Major Federal Program

We have audited the State of Wisconsin's compliance with the types of compliance requirements described in the federal Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019. The State of Wisconsin's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

The State of Wisconsin's basic financial statements include the operations of the Wisconsin Housing and Economic Development Authority, the Wisconsin Economic Development Corporation, and the University of Wisconsin Hospitals and Clinics Authority. These entities expended \$365.6 million in federal awards that are not included in the State of Wisconsin's Schedule of Expenditures of Federal Awards for the year ended June 30, 2019. Our audit, as described under the Auditor's Responsibility section of this report, did not include the operations of these entities because these entities engaged other auditors to perform an audit of compliance.

Management's Responsibility

Management of each Wisconsin state agency is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State of Wisconsin's major federal programs based on our audit of the types of compliance requirements referred to in the first paragraph. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, which is issued by the Comptroller General of the United States; and the audit requirements of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the State of Wisconsin's

16 - - - AUDITOR'S REPORTS ON FEDERAL PROGRAMS

compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for each major federal program. However, our audit does not provide a legal determination on the State of Wisconsin's compliance.

Basis for Qualified Opinion on Certain Major Federal Programs

As described in the accompanying agency report narratives and in Section III of the Schedule of Findings and Questioned Costs, the State of Wisconsin did not comply with requirements regarding the following:

Finding Number	CFDA Number	Major Federal Program/Cluster	Type of Compliance Requirement
2019-400	10.553/10.555/ 10.556/10.559	Child Nutrition Cluster	Cash Management
2019-401	10.558	Child and Adult Care Food Program	Cash Management
2019-402	84.287	Twenty-First Century Community Learning Centers	Cash Management

Compliance with such requirements is necessary, in our opinion, for the State of Wisconsin to materially comply with the requirements applicable to these programs.

Qualified Opinion on Certain Major Federal Programs

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion section, the State of Wisconsin complied, in all material respects, with the types of compliance requirements referred to in the first paragraph that could have a direct and material effect on the Child Nutrition Cluster (CFDA #10.553/10.555/10.556/10.559), Child and Adult Care Food Program (CFDA #10.558), and Twenty-First Century Community Learning Centers (CFDA #84.287) federal programs, for the year ended June 30, 2019.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of Wisconsin complied, in all material respects, with the types of compliance requirements referred to in the first paragraph that could have a direct and material effect on each of its other major federal programs identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs, for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with Uniform Guidance and which are described in the accompanying agency report narratives and in Section III of the Schedule of Findings and Questioned Costs as Findings 2019-100, 2019-300 through 2019-306, and Findings 2019-810 and 2019-811. Our opinion on each major federal program is not modified with respect to these matters.

Wisconsin state agencies' responses and corrective action plans to the noncompliance findings identified in our audit are in the accompanying agency report narratives and the Corrective

Action Plans chapter, respectively. The responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control over Compliance

Management of the State of Wisconsin is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to in the first paragraph. In planning and performing our audit, we considered the State of Wisconsin's internal control over compliance with the types of compliance requirements that could have a direct and material effect on a major federal program. This consideration was solely to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance. This consideration was not for the purpose of expressing an opinion on the effectiveness of internal control over compliance is an opinion on the effectiveness of the State of Wisconsin's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of Wisconsin's internal control over compliance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying agency report narrative and in Section III of the Schedule of Findings and Questioned Costs as Findings 2019-400 through 2019-402 to be material weaknesses.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance, described in the accompanying agency report narratives and in Section III of the Schedule of Findings and Questioned Costs as Findings 2019-100, 2019-300 through 2019-306, and Findings 2019-810 and 2019-811, to be significant deficiencies.

Wisconsin state agencies' responses and corrective action plans to the internal control over compliance findings identified in our audit are in the accompanying agency report narratives and the Corrective Action Plans chapter, respectively. The responses and corrective action

18 - - - AUDITOR'S REPORTS ON FEDERAL PROGRAMS

plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for the State of Wisconsin as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State of Wisconsin's basic financial statements. We have issued our report thereon dated December 20, 2019, which contains unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 20, 2019. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

LEGISLATIVE AUDIT BUREAU

Yoe Chrisman State Auditor

March 18, 2020

Department of Administration -

The Wisconsin Department of Administration (DOA) provides support services to other state agencies, manages certain housing and economic development activities, and performs other functions prescribed by law. DOA is also responsible for providing the Governor with fiscal management information and the policy alternatives required for preparing Wisconsin's biennial budget. In FY 2018-19, DOA administered \$169.6 million in federal financial assistance.

We tested DOA's internal controls and compliance with grant requirements for the Low-Income Home Energy Assistance Program (LIHEAP) (CFDA #93.568), which is a type A program. We also tested DOA's internal controls and compliance with grant requirements for Weatherization Assistance for Low-Income Persons (Weatherization) (CFDA #81.042), which is a type B program. We identified an internal concern over federal reporting for these programs (Finding 2019-100).

We also tested internal controls for federal cash management processes performed by DOA and tested compliance with requirements of the Cash Management Improvement Act (CMIA) of 1990, as specified in 31 CFR Part 205. We identified concerns with the timing of draws of federal funds that affect grants administered by the departments of Health Services (DHS) and Public Instruction (DPI). Findings 2019-301 through 2019-303 are discussed in the DHS chapter, which starts on page 23, and Findings 2019-400 through 2019-402 are discussed in the DPI chapter, which starts on page 45. DHS and DPI will be responsible for implementing corrective actions and resolving the findings with the federal government.

In addition, we followed up on DOA's progress in addressing Findings 2018-100 and 2018-101 of our FY 2017-18 single audit (report 19-3). DOA implemented corrective actions to address our concerns related to Finding 2018-101, and to

partially address Finding 2018-100. It will be important for DOA to continue to work to resolve this finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Finding: 2019-100: Internal Controls over Reporting

Criteria:

The U.S. Department of Health and Human Services (DHHS) provides funding to DOA's Division of Energy, Housing, and Community Resources (DEHCR) for the Low-Income Home Energy Assistance Program (LIHEAP) (CFDA #93.568). The U.S. Department of Energy (DOE) provides funding to DEHCR for the Weatherization Assistance for Low-Income Persons (WAP) program (CFDA #81.042). These programs are used to provide benefits to eligible low-income home owners and renters to reduce the energy burden in heating and cooling their homes. DOA uses the Home Energy (HE) Plus computer system to determine eligibility for individuals applying for benefits, to calculate benefits, and to store information on applicants and beneficiaries, including the types of benefits provided and household data, such as household income.

As the LIHEAP recipient for the State of Wisconsin, DOA is required to submit reports to DHHS, including the *LIHEAP Performance Data Form*, which includes information on funding and performance metrics, such as home energy burden. As the WAP recipient for the State of Wisconsin, DOA is required to submit reports to DOE, including the *WAP Quarterly Program Report*, which includes information on funding and performance metrics, such as energy savings. DOA is also responsible for maintaining effective internal controls to ensure the accuracy of reports filed with DHHS and DOE.

Condition:

DOA uses internally generated queries to automatically summarize information from the HE Plus computer system to prepare certain reports for the LIHEAP and WAP programs. For example, DOA used an internally generated query to automatically summarize the household data for the *LIHEAP Performance Data Form*. Although our review indicated that DOA materially complied with reporting compliance requirements for LIHEAP and WAP, it did not develop sufficient internal controls to ensure the accuracy of query results or have adequate compensating controls in place.

Questioned Costs:

None.

Context:

During our FY 2018-19 audit, we interviewed DEHCR staff to gain an understanding of the procedures and internal controls in place to ensure the reporting compliance requirements were met.

Effect:

No material noncompliance was identified in our testing of the LIHEAP and WAP program reports. However, we found DOA's internal controls were not sufficient to ensure the accuracy of the queries of the HE Plus computer system. The deficiency in internal control over compliance for the reporting requirement increases the risk that DOA could submit inaccurate reports.

Cause:

DOA did not have ongoing procedures in place to review the accuracy of queries of the HE Plus computer system that are used to prepare federally required reports.

☑ Recommendation

We recommend the Wisconsin Department of Administration develop and implement procedures to regularly review HE Plus queries to ensure accurate data is used in the preparation of federally required reports.

Response from the Wisconsin Department of Administration: The Wisconsin Department of Administration agrees with the audit finding and recommendation.

....

Department of Health Services

The Wisconsin Department of Health Services (DHS) provides services to clients in communities and institutions, regulates certain care providers, and supervises and consults with local public and volunteer agencies. It administers state and federal programs involving public health, mental health, substance abuse, long-term care, services to people with disabilities, and medical care. In FY 2018-19, DHS administered \$7.0 billion in federal financial assistance.

We tested DHS's internal controls and compliance with grant requirements for three type A programs: WIC Special Supplemental Nutrition Program for Women, Infants, and Children (CFDA #10.557), Immunization Cooperative Agreements (CFDA #93.268), and Medicaid Cluster (CFDA #93.775/93.777/93.778). We also tested DHS's internal controls and compliance with grant requirements for Public Health Emergency Preparedness (CFDA #93.069) and Block Grants for Community Mental Health Services (CFDA #93.958), which are type B programs. Our audit findings are the following:

- Computer Data Matches (Finding 2019-300);
- Timing of Draws of Federal Funds—Public Health Emergency Preparedness (Finding 2019-301);
- Timing of Draws of Federal Funds—Immunization Cooperative Agreements (Finding 2019-302);
- Timing of Draws of Federal Funds—Block Grants for Community Mental Health Services (Finding 2019-303);

- Monitoring of Subrecipients—Public Health Emergency Preparedness Program (Finding 2019-304);
- Security for Medical Assistance Program IT Systems (Finding 2019-305); and
- Medical Assistance Program Provider Overpayments (Finding 2019-306).

In addition, we followed up on DHS's progress in addressing Findings 2018-300 through 2018-305 of our FY 2017-18 audit (report 19-3), as well as Findings 2017-301 and 2017-302 of our FY 2016-17 audit (report 18-5), which were included in the Summary Schedule of Prior Audit Findings in report 19-3. DHS implemented corrective actions to address our concerns related to Findings 2018-302, 2018-304, 2017-301, and 2017-302, and to partially address Finding 2018-300. DHS did not implement corrective actions to address our concerns related to Findings 2018-301, 2018-303, and 2018-305. It will be important for DHS to continue to work to resolve these findings. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Finding 2019-300: Computer Data Matches

Criteria:

The U.S. Department of Health and Human Services provides funding to DHS for the Medical Assistance (MA) Program. Funding under this program is used to provide financial assistance to states for medical payments on behalf of adults, children, pregnant women, and the aged who meet income and resource requirements, and other categorically eligible groups. Local agency caseworkers assist with performing eligibility determination functions by collecting information from MA applicants and recording this information into the statewide Client Assistance for Reemployment and Economic Support (CARES) computer system, which determines eligibility for various income maintenance programs.

DHS is required under 42 CFR s. 435.948 to verify the reasonableness of wage and other financial information obtained from applicants and that is used in making eligibility determinations. DHS is allowed to determine which information from various computer databases is useful for verifying the reasonableness of information in CARES. DHS completes data matches with the following:

- information from the U.S. Social Security Administration (SSA), including social security numbers and supplemental security income payments;
- unemployment compensation (UC) information maintained by the Department of Workforce Development (DWD) Division of Unemployment Insurance; and

 state wage information collected by the Division of Unemployment Insurance in DWD, which is Wisconsin's state wage information collection agency (SWICA).

As required by 42 CFR s. 435.952, DHS must promptly perform the data matches. Local agency caseworkers then follow up on data match discrepancies to ensure eligibility determinations are based on the most recent and reliable data. DHS policy generally requires that caseworkers resolve 80 percent of all data match discrepancies within 45 days of the data match date and document the actions taken to resolve each discrepancy. If it is determined that benefits were provided to ineligible individuals or excessive benefits were provided to eligible individuals, DHS must take steps to recover the overpayments and return the federal share to the federal government.

Condition:

We again determined that DHS has not met its policy requirement of resolving 80 percent of SWICA data match discrepancies within 45 days. Using SWICA data match discrepancy and resolution data provided by DHS, we found that 62.8 percent of data match discrepancies were resolved within 45 days between April 2018 and March 2019. This percentage is lower than the prior year when 70.8 percent of matches were resolved within 45 days. We also observed that 10 of the 25 data match discrepancies we reviewed were not resolved within 45 days. On average, the 10 data match discrepancies took caseworkers an additional 22 days beyond the required 45 days to resolve.

Questioned Costs:

None.

Context:

We found DHS completed required data matches with SSA, UC, and SWICA. In total, we reviewed 65 data match discrepancies that occurred between April 2018 and March 2019, including 25 SWICA data match discrepancies. We noted no issues with those involving the SSA and UC data matches. Furthermore, we found that the resolution rate for UC data match discrepancies we reviewed improved compared to the prior year, noting that caseworkers resolved 98.6 percent of the UC discrepancies within 45 days compared to 97.2 percent the prior year.

Effect:

Because caseworkers did not consistently follow up in a timely manner on the SWICA-identified data match discrepancies, it is unknown whether the most accurate information available was used to make eligibility determinations. It is also possible that some individuals received services for which they were not eligible and for which DHS received federal reimbursement.

Cause:

SSA data matches are entirely automated within CARES, and UC data matches include some automation. Because SWICA data matches discrepancies require more

manual action from caseworkers than those from SSA and UC data matches, SWICA data match discrepancies may require more time to resolve than SSA and UC data match discrepancies. Although DHS identified measures for addressing the reasons why caseworkers did not resolve SWICA data match discrepancies in a timely manner, it has not yet fully implemented these measures, which include adding CARES system enhancements and increased automation for SWICA data match discrepancies as well as providing training to caseworkers.

☑ Recommendation

We recommend the Wisconsin Department of Health Services implement the measures that it identified to assist caseworkers in resolving data match discrepancies in a timely manner, which include adding CARES system enhancements and increased automation for discrepancies generated from SWICA data matches as well as providing training to caseworkers.

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendation.

Finding 2019-301: Timing of Draws of Federal Funds—Public Health Emergency Preparedness

Finding 2019-302: Timing of Draws of Federal Funds—Immunization Cooperative Agreements

Finding 2019-303: Timing of Draws of Federal Funds—Block Grants for Community Mental Health Services

Criteria:

The Cash Management Improvement Act (CMIA) of 1990, as amended, requires that the State enter into an agreement with the U.S. Department of the Treasury for certain federal programs to ensure that neither the State nor the federal government earns interest income at the expense of the other. This agreement is referred to as the Treasury-State Agreement (TSA). For other federal programs, CMIA regulations in 31 CFR s. 205.33 require the State to minimize the time between when the State draws federal funds from the federal government and when the State disburses funds for federal program purposes. The regulations further specify that the timing and amount of the draws from the federal government are to be as close as administratively feasible to the State's actual cash outlay.

Condition:

To determine the timing of drawing federal funds, the State Controller's Office in the Department of Administration (DOA) uses a report from the State's enterprise resource planning system, STAR, which includes the State's accounting system. This STAR report identifies the earliest date the federal funds should be drawn in addition to the amount that may be drawn, both of which are based on information derived from federal program transactions processed in STAR by DHS and other state agencies. These transactions include those that directly result in a payment as well as other non-payment transactions, such as those that allocate costs.

A payment may be scheduled in STAR to be disbursed at a future date, rather than immediately after the date the transaction was approved in STAR. However, after a payment transaction is approved in STAR, the central federal draw process begins regardless of the scheduled disbursement date. For those payments DHS scheduled in STAR to be disbursed at a future date, particularly those scheduled to be disbursed five days or more in the future, the STAR report indicated the federal funds could be drawn even though the actual STAR disbursement had not yet occurred. Further, DHS did not have controls in place to limit the time between the draw of federal funds and the disbursement of federal funds for those grant expenditures that were not processed through benefit or subrecipient payment systems and subsequently recorded in STAR.

Questioned Costs:

None.

Context:

During FY 2018-19, DHS administered approximately \$11.5 million for the Public Health Emergency Preparedness program (CFDA #93.069), \$56.2 million for the Immunization Cooperative Agreements program (CFDA #93.268), and \$8.7 million for the Block Grants for Community Mental Health Services program (CFDA #93.958). We reviewed a selection of draws of federal funds and a selection of expenditure transactions for each program. For each selected item, we compared the date the federal funds were drawn and received from the federal government to the State's scheduled payment disbursement date. We did not identify concerns in the timing of federal draws for expenditures processed through DHS benefit or subrecipient payment systems, which represented the largest payments for these programs.

Effect:

Five days or more elapsing between the date a payment transaction was approved and the date the payment was disbursed indicates that the draw of federal funds was initiated before it was appropriate to do so and, therefore, the State did not minimize the time between drawing and disbursing funds for federal program purposes. For the selected payment transactions we reviewed, certain payment disbursements were scheduled five or more days in the future. For example:

- A payment for the Public Health Emergency Preparedness program was approved in STAR on September 12, 2018, with a scheduled disbursement date of September 27, 2018. The related federal funds were received on September 13, 2018, which was 14 days prior to the scheduled disbursement date.
- A payment for the Immunization Cooperative Agreements program was approved in STAR on May 24, 2019, with a scheduled disbursement date of June 19, 2019. The related federal funds were received on May 28, 2019, which was 22 days prior to the scheduled disbursement date.
- A payment for the Block Grants for Community Mental Health Services program was approved in STAR on February 20, 2019, with a scheduled disbursement date of March 1, 2019. The related federal funds were received on February 21, 2019, which was 8 days prior to the scheduled disbursement date.

Cause:

STAR is a complex system, and the processing that creates the STAR report used by DOA is several steps removed from the entry of a payment transaction, increasing the difficulty of including payment transactions in that report based on the scheduled disbursement date. Because the STAR report DOA used in drawing federal funds is based on the date the transaction was approved in STAR rather than the scheduled disbursement date, DOA was unaware whether scheduled disbursement dates varied significantly from the approved date in the STAR report.

In FY 2017-18, we recommended that DOA correct this deficiency (Findings 2018-100 and 2018-101). In response to our prior audit recommendations, DOA revised procedures in the *Wisconsin Accounting Manual* in March 2019 to explain the need to reduce the time between the draw of federal funds and the scheduled disbursement of funds for federal programs by as much as administratively feasible. However, the control deficiency in DOA's draw process for the grant programs was present for the majority of FY 2018-19. From March through June 2019, DHS also did not implement changes to its practice of scheduling certain payments to address this issue. Instead, DHS relied on future changes DOA planned to make to STAR to improve the central draw process.

☑ Recommendation

We recommend the Wisconsin Department of Health Services work with the Wisconsin Department of Administration to ensure compliance with federal cash management requirements, including by reducing the time between the draw of federal funds and the scheduled disbursement of funds for federal programs it administers by as much as administratively feasible.

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendation.

Finding 2019-304: Monitoring of Subrecipients—Public Health Emergency Preparedness Program

Criteria:

DHS receives federal funding from the Centers for Disease Control and Prevention under the Public Health Emergency Preparedness (PHEP) program (CFDA #93.069) to support the development of emergency-ready public health departments that are flexible and adaptable in order to aid state responsiveness to a variety of hazards. DHS is subject to *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) in administering the program. Uniform Guidance includes three requirements related to the monitoring of subrecipients. First, 2 CFR s. 200.331 (a) (1) requires DHS to communicate certain award information to subrecipients at the time of the subaward. Second, 2 CFR s. 200.331 (b) requires DHS to evaluate each subrecipient's risk of noncompliance for purposes of determining the appropriate nature and level of subrecipient monitoring. Third, 2 CFR s. 200.331 (d) through (f) requires DHS to monitor the activities of the subrecipient as necessary to ensure that the subrecipient uses the subaward for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals.

Condition:

We found that DHS did not comply with all of the subrecipient monitoring requirements of Uniform Guidance in administering the PHEP program. First, we found 1 of the 11 subrecipient agreements we reviewed did not communicate all of the required award information. For example, the agreement did not identify the Federal Award Identification Number, the Federal Award Date, or the CFDA number and name. Second, DHS could not provide documentation to support that it had completed 1 of the 11 risk assessments for subrecipients we reviewed. We found that the subrecipient that did not receive all of the required information was different than the subrecipient for which DHS could not provide documentation that a risk assessment had been completed. In addition, although the completed risk assessments indicated each subrecipient's risk was low, DHS did not have procedures in place to determine what monitoring steps would be taken for subrecipients with risks greater than low.

Finally, we found that DHS could not provide documentation of other subrecipient monitoring activities it conducted. For example, DHS required subrecipients to submit budgets for review by PHEP staff. However, there was no formal documentation, such as a confirmation, email, or comments to note that the review was completed. In addition, DHS did not have a tracking method in place to identify that it had received all budgets and that all budgets had been reviewed. These findings when considered together support that DHS needs to take further steps to ensure that Uniform Guidance requirements are implemented for the PHEP program.

Questioned Costs:

None.

Context:

During FY 2018-19, DHS expended \$11.5 million under the PHEP program and disbursed nearly \$9.2 million to approximately 100 subrecipients, including county and city health departments, tribes, and the University of Wisconsin System. DHS is responsible for performing monitoring procedures for the subrecipients of these funds. We reviewed the agreements between DHS and subrecipients to identify whether DHS had communicated the required award information to subrecipients. We also reviewed monitoring activities performed by DHS for the PHEP program during FY 2018-19, including by gaining an understanding of the process DHS used for reviewing subrecipients, and the procedures used by DHS to monitor subrecipients through the review of periodic reports and budget activities. We also considered informal monitoring activities, including the frequency of discussions DHS held with subrecipients.

Effect:

Because DHS did not comply with all of the subrecipient monitoring compliance requirements for the PHEP program, there is a higher risk that DHS, as well as the subrecipients, are not in compliance with all federal requirements.

Cause:

DHS did not develop sufficient written procedures or controls to ensure all subrecipient monitoring requirements were performed and documented for the PHEP program. Because DHS contracts with many of the same PHEP program subrecipients each year and works closely with them to discuss programmatic goals and outcomes, DHS did not consider it necessary to document all of its monitoring activities.

Although DHS staff responsible for the PHEP program completed many of the subrecipient monitoring requirements required by Uniform Guidance, DHS had not ensured it consistently used standard award templates that communicated all required information to subrecipients, implemented a tracking methodology for completing required risk assessments; and documented that it received and reviewed monitoring reports from all subrecipients in a timely manner. DHS also did not have procedures to identify what steps were necessary when a risk assessment identified a subrecipient with risk greater than low. Given the lack of procedures and controls, it is more challenging for DHS to ensure it complies with subrecipient monitoring requirements when staff turnover occurs as it did in November 2019.

☑ Recommendation

We recommend the Wisconsin Department of Health Services develop and implement policies and procedures and maintain documentation to ensure compliance with Uniform Guidance subrecipient monitoring requirements, including:

 ensuring that all required award information is communicated in all subrecipient agreements;

- developing written subrecipient monitoring procedures to identify what monitoring steps are necessary when risks greater than low are identified from the risk assessment process;
- implementing a tracking method to ensure that all subrecipient risk assessments are completed; and
- maintaining documentation of all subrecipient monitoring activities conducted.

Questioned Costs: None

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendation.

Finding 2019-305: Security for Medical Assistance Program IT Systems

Criteria:

DHS is highly dependent on information technology (IT) systems to administer the MA Program. For example, DHS relies on IT systems to ensure adequate controls are in place for determining eligible program participants and processing MA Program payments. DHS contracts with a vendor to operate the Medicaid Management Information System (MMIS), which is used to process MA Program medical claims and other payments. DHS also contracted with a vendor to develop the CARES system, which is used to determine eligibility for most MA Program participants. Although DHS contracts for CARES system support, it determines the security policies and procedures for the system.

DHS is responsible for ensuring that adequate IT security controls are in place in both MMIS and CARES. For example, 45 CFR s. 95.621, requires DHS to determine appropriate security requirements and to review information systems used in the administration of the MA Program. Further, because MMIS and CARES include medical information related to MA Program participants, DHS is required by

45 CFR 164.308 to ensure security requirements are in place to protect that information.

DHS is also required to follow state IT security policies and procedures established by DOA. In October 2018, DOA established statewide information IT policies and standards for state agencies to follow when administering state IT systems. These policies and standards are based on the National Institute of Standards and Technology (NIST) framework. Specifically, NIST developed *Special Publication 800-53* to provide guidance for meeting minimum requirements for federal information systems, including guidance on remediating security vulnerabilities within a defined time frame.

Condition:

We found DHS did not fully comply with the federal regulations and state policies and procedures to ensure the security of IT systems for the MA Program. For example, we found security weaknesses in CARES in areas such as reviewing and monitoring access. In addition, we found DHS did not adequately monitor MMIS access it had granted to DHS staff. We determined that the detailed results of our reviews in these areas were too sensitive to communicate publicly. Therefore, we communicated the results in a separate confidential communication to DHS dated January 30, 2020.

We also found that a third-party had identified MMIS security weaknesses, including in areas such as access and data processing, through MMIS security assessments it performed for the operating vendor of MMIS. DHS did not ensure the vendor resolved the security weaknesses in a timely manner. Of the security weaknesses reported to DHS in February 2018, 14 security weaknesses assessed as high and 13 assessed as medium were not fully remediated as of June 2019. In addition, DHS did not implement compensating controls to address the security weaknesses.

Questioned Costs:

None.

Context:

We reviewed DHS IT security policies and procedures and compared them to federal regulations, DOA policies and procedures, and NIST guidance. DHS determines IT security policies and procedures for CARES and other DHS applications applicable to the MA Program. However, the operating vendor of MMIS is contractually required to obtain a third-party security assessment of MMIS. DHS was provided with the security assessment in February 2018, which it used to monitor the policies and procedures in place for MMIS during fiscal year 2018-19. We reviewed the MMIS security assessment and status of DHS's follow-up on the findings provided in the security assessment.

Effect:

Procedures and settings that do not align with federal regulations and state policies and procedures weaken the level of security for IT systems applicable to the MA Program. For example, failure to properly manage and maintain a secure environment could result in inappropriate access, which could result in the issuance of erroneous or fraudulent payments, ineligible program participants, or inappropriate viewing of confidential data.

Cause:

DHS IT policies did not conform to DOA policies and procedures, which represent the minimum standards. In addition, in some instances, DHS policies need to be more stringent to comply with federal regulations for the types of data it manages. DHS attributed the delay in remediating the MMIS security weaknesses, in part, to actions DHS planned in November 2019 that would resolve certain weaknesses without vendor changes. DHS chose to accept the risk presented by the delay. In other instances, DHS did not hold the vendor accountable for original remediation dates. According to DHS, under its prior contract with the vendor, DHS relied on the vendor to identify the timeline to remediate specific security weaknesses. Despite periodic monitoring and discussion with the vendor, DHS did not object when the vendor extended remediation timelines. Under a new contract that began in August 2018, and in response to the most recent MMIS security assessment obtained in September 2019, DHS is taking steps to develop remediation timelines for the vendor based on the severity of the security weakness.

☑ Recommendation

We recommend the Wisconsin Department of Health Services ensure that it adequately safeguards information technology systems used in administering the Medical Assistance Program, including by:

- developing and implementing information technology policies and procedures that comply with federal regulations and state policies and procedures;
- establishing specific timelines for remediation of security weaknesses identified; and
- monitoring that corrective actions to remediate security weaknesses are taken in a timely manner.

Questioned Costs: None

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendation.

Finding 2019-306: Medical Assistance Program Provider Overpayments

Criteria:

The U.S. Department of Health and Human Services provides funding to DHS for the MA Program. DHS uses MA program funding to make payments for services provided to eligible participants. DHS is required by 42 USC s. 1396a (a) (42) (A) to operate a program to audit provider records to ensure that proper payments are made under the MA Program.

Under 42 CFR s. 433.316, MA Program overpayments, which are the amounts paid by DHS to a provider that are in excess of the amounts allowable for the services provided, are required to be refunded to the federal government within one year of discovery. Discovery of an overpayment is defined as the identification by DHS, the federal government, or the provider of the overpayment, and the communication to the provider that the overpayment is subject to recovery. Unless it is the result of fraud, the federal regulations provide that an overpayment is discovered on the date on which DHS first notifies a provider in writing of an overpayment and specifies the amount that is subject to recovery unless notification already occurred in another manner.

Further, 42 USC s. 1396b (d) (2) (C) requires that when DHS identifies an overpayment, it is required to recover or attempt to recover that overpayment. However, regardless of whether DHS is successful in recovering an overpayment, the return to the federal government of the federal share is required to be completed within one year of discovery of the overpayment.

Condition:

As required by DHS s. 108.09, Wis. Adm. Code, if DHS identifies an overpayment during an MA Program provider audit and a voluntary repayment is not achieved, DHS sends a Notice of Intent to Recover (NIR) letter as a final step to initiate recovery from the provider.

In September 2016, a circuit court issued an injunction prohibiting DHS from recovering payments for noncompliance with MA Program requirements other than those set forth in Wisconsin Statutes. Under the injunction, DHS was prohibited from issuing NIR letters or otherwise recovering funds from an MA provider except for payments DHS was unable to verify from the provider's records that a service was actually provided or for which an amount claimed was inaccurate or inappropriate for the service that was provided. The circuit court also stated that if DHS did not cease recovery efforts prohibited under the injunction, it would be found in contempt of court.

DHS continued to conduct audits of MA Program providers, identify potential overpayments, and communicate to the MA providers the identified overpayments. However, except in limited circumstances, DHS ceased completing NIR letters for contested provider overpayments it had identified. As a result, DHS did not begin recovery efforts nor return the federal share of identified overpayments.

In July 2019, the circuit court ruled in favor of DHS. DHS subsequently began processing the backlog of audits that had accumulated during the period of time the court's injunction was in place. In December 2019, the plaintiffs petitioned the Supreme Court for review of the case.

Questioned Costs:

None.

Context:

During FY 2018-19, the MA Program had federal expenditures of \$5.5 billion. We reviewed the process used by DHS to audit MA provider records to ensure that proper payments were made under the MA Program. As part of this review, we obtained a listing of the MA provider audits and found DHS had closed 175 audits during FY 2018-19. However, in June 2019, DHS had 1,208 audits outstanding. DHS estimated a total of \$18.3 million in overpayments were outstanding as of June 2019 from providers that had been sent preliminary letters through June 2018.

Effect:

DHS did not comply with federal regulations to return to the federal government in a timely manner the federal government's share of the overpayments DHS identified from MA Program providers.

Cause:

During FY 2018-19, DHS was prohibited from issuing NIR letters in an attempt to begin recovery efforts for overpayments identified in the provider audit process. Since a NIR was not issued, DHS interpreted federal regulations to mean that the one-year time period during which it must return to the federal government its share of overpayments had not begun. DHS did not consider that issuing preliminary letters may constitute an action that begins the time period for returning overpayments to the federal government. Although the overpayments communicated in DHS's preliminary letters are characterized to the provider as amounts that may be recovered, this does not necessarily preclude them from being considered as discovery of an overpayment under the provisions in 42 CFR s. 433.316 (c) (1).

Further, federal regulations do not explicitly indicate that DHS must be able to recover the overpayment, such as through the issuance of an NIR letter, for the federal government's share of the overpayment to be returned within one year. The federal regulations allow a one-year time period for returning the federal share of identified overpayments, in part, for DHS to make attempts to settle the overpayment amount and collect the amounts.

In FY 2017-18, we communicated that DHS's practice of issuing preliminary letters and communicating potential overpayments to providers is sufficient under federal regulations to begin the time period in which DHS must return the federal share of overpayments identified (Finding 2018-305). Because DHS disagreed with the finding, it made no changes during FY 2018-19.

☑ Recommendation

We again recommend the Wisconsin Department of Health Services comply with the federal regulations and return to the federal government its share of Medical Assistance Program provider overpayment amounts it has identified and communicated to providers.

Questioned Costs: None

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services respectfully disagrees with the audit finding and recommendation.

....

Department of Military Affairs

The Department of Military Affairs (DMA) provides a military force through the Wisconsin National Guard, which is available for use in state and national emergencies. Through the Division of Emergency Management, DMA also implements statewide emergency preparedness plans and administers federal disaster and emergency relief funds. In FY 2018-19, DMA administered \$81.6 million in federal financial assistance.

We tested DMA's internal controls and compliance with grant requirements for the National Guard Military Operations and Maintenance (O&M) Projects (CFDA #12.401), which is a type A program. We also tested internal controls and compliance with grant requirements for Disaster Grants—Public Assistance (Presidentially Declared Disasters) (CFDA #97.036), which is a type B program. Our audit findings are the following:

- National Guard Military Operations and Maintenance (O&M) Projects Extensions (Finding 2019-810); and
- Internal Controls Over Matching and Reporting for the Disaster Grants—Public Assistance (Presidentially Declared Disasters) Program (Finding 2019-811).

Finding 2019-810: National Guard Military Operations and Maintenance (O&M) Projects Extensions

Criteria:

The National Guard Military O&M Projects grant provides funding for minor construction, maintenance, repair or operation of facilities, as well as mission

operational support for the Army and Air National Guard. DMA and the federal National Guard Bureau enter into a Master Cooperative Agreement, which is made up of 16 appendices. Each appendix pertains to a functional area and contains the applicable terms and conditions, such as the authorized and unauthorized activities for operations and maintenance.

The National Guard Bureau established National Guard Regulation 5-1, National Guard Grants and Cooperative Agreements. Under Ch. 11-10 of this regulation, DMA is required to submit a written extension request to the United States Property and Fiscal Officer (USPFO) for each appendix for which there are unexpended grant funds 90 days or more after the close of the federal fiscal year. For example, a 2018 grant that ends with the federal fiscal year on September 30, 2018, would require an extension to be submitted if there were unexpended grant funds as of December 31, 2018. For each appendix, the extension request is required to include a listing of all unexpended grant funds and a projected timeline for when those grant funds will be expended. DMA is required to submit extension requests every 90 days until all grant funds under that appendix are expended. Without a submitted extension request, DMA is not permitted to expend additional grant funds nor receive federal reimbursement under that appendix for that grant year.

DMA works with program managers employed by the federal government in administering the National Guard Military O&M Projects grant. Because DMA is the recipient of the National Guard Military O&M Projects grant for the State of Wisconsin, DMA is responsible for maintaining effective internal controls to ensure extension requests are submitted to the USPFO.

Condition:

During our FY 2018-19 audit, we reviewed 50 expenditures for the National Guard Military O&M Projects grant for which an extension request should have been submitted to the USPFO. For 10 of the 50 expenditures we reviewed, DMA could not demonstrate that an extension request had been submitted.

Questioned Costs:

We question a total of \$271,198 in improper National Guard Military O&M Projects expenditures because DMA could not demonstrate an extension request had been submitted. There may also be additional improper National Guard Military O&M Projects expenditures because other extension requests were not submitted.

Context:

We interviewed DMA staff to gain an understanding of the procedures for submitting extension requests to the USPFO. We requested the submitted extension requests for 10 individually important expenditures and 40 randomly sampled expenditures for which an extension request should have been submitted. We then assessed if there was a submitted extension request covering the time period during which the expenditure occurred.

Effect:

DMA did not consistently comply with federal regulations for submitting an extension request when there were unexpended grant funds 90 days or more after the close of the federal fiscal year. Because DMA could not demonstrate extension requests were submitted as required, it expended funds when it was not permitted to do so and, subsequently, DMA received federal reimbursement for grant expenditures that may not be allowable.

Cause:

DMA had assigned the role of submitting extension requests to the federal program managers, but it did not implement procedures to ensure that an appendix requiring an extension had an extension request submitted.

☑ Recommendation

We recommend the Wisconsin Department of Military Affairs develop and implement procedures to ensure extension requests are submitted as required.

Questioned Costs: \$271,198

Response from the Wisconsin Department of Military Affairs: The Wisconsin Department of Military Affairs agrees with the audit finding and recommendation.

Finding 2019-811: Internal Controls over Matching and Reporting for the Disaster Grants—Public Assistance (Presidentially Declared Disasters) Program

Criteria:

The Federal Emergency Management Agency (FEMA) provides funding to DMA for the Disaster Grants—Public Assistance (Presidentially Declared Disasters) program (Disaster Grants) (CFDA #97.036). This funding provides assistance for response and recovery from major disasters and emergencies declared by the President of the United States. During FY 2018-19, DMA expended \$18.5 million under this program for eight disasters, each of which are made up of multiple projects.

As the recipient of the Disaster Grants for the State of Wisconsin, DMA is responsible for expending a required percentage of total expenditures from state funding sources to meet a matching requirement, and it is required to submit quarterly financial reports to FEMA. DMA is also responsible for maintaining effective internal controls, including policies and procedures to ensure it expends the required percentage of total expenditures and submits accurate quarterly financial reports to FEMA.

Condition:

DMA used an internally generated spreadsheet to automatically summarize the incurred expenditures used to meet the matching requirement. DMA also used this spreadsheet to automatically generate expenditure amounts for the quarterly financial reports to FEMA. Our review indicated that DMA materially complied with the matching and reporting compliance requirements for the Disaster Grants. However, we identified concerns with the query that obtained expenditure data for the spreadsheet from the State's accounting system. Specifically, the query used an inappropriate date field that could produce different results if the same date range was entered in that field but the query was executed on different days. In addition, certain criteria can be manually entered into certain fields for which consistent criteria should be used in order to produce consistent results.

Although DMA developed the spreadsheet and underlying query to ensure the matching and reporting compliance requirements were met, these internal controls were not sufficient to ensure consistency and accuracy. Further, DMA did not have adequate compensating controls.

Questioned Costs:

None.

Context:

During our FY 2018-19 audit, we interviewed DMA staff to gain an understanding of the procedures and internal controls in place to ensure the matching and reporting compliance requirements were met for the Disaster Grants. To assess if the internal controls were appropriate and effective, we reviewed the formulas

applied by the spreadsheet and the underlying query used to obtain the expenditure data from the State's accounting system.

Effect:

Although no material noncompliance was identified for the Disaster Grants, we found DMA's internal controls were not sufficient. The deficiency in internal controls over compliance for the matching and reporting requirements increases the risk that DMA will expend more or less than its required percentage of total expenditures and that DMA will submit inaccurate quarterly financial reports to FEMA.

Cause:

Although DMA performed reviews of the spreadsheet results, the reviews were not designed in a manner that would identify the issues with the underlying query used to obtain the expenditure data. DMA also did not perform specific quality assurance reviews of the underlying query to ensure the query functioned correctly and consistently produced accurate results. DMA also did not have established procedures for executing the underlying query to ensure appropriate and consistent criteria was entered.

☑ Recommendation

We recommend the Wisconsin Department of Military Affairs modify the query that obtains expenditure data from the State's accounting system so that the query consistently provides accurate data, and develop and implement written procedures to ensure the query is consistently executed using appropriate criteria.

Response from the Wisconsin Department of Military Affairs: The Wisconsin Department of Military Affairs agrees with the audit finding and recommendation.

Department of Public Instruction

The Wisconsin Department of Public Instruction (DPI) provides guidance and technical assistance to support public elementary and secondary education in Wisconsin. It also provides assistance for the development and improvement of public and school libraries. In FY 2018-19, DPI administered \$836.4 million in federal financial assistance.

We tested DPI's internal controls and compliance with grant requirements for three type A programs: Child Nutrition Cluster (CFDA #10.553/10.555/10.556/10.559), Child and Adult Care Food Program (CFDA #10.558), and Supporting Effective Instruction State Grants (formerly Improving Teacher Quality State Grants) (CFDA #84.367). We also tested DPI's internal controls and compliance with grant requirements for Twenty-First Century Community Learning Centers (CFDA #84.287), which is a type B program. Our audit findings are the following:

- Timing of Draws of Federal Funds—Child Nutrition Cluster (Finding 2019-400);
- Timing of Draws of Federal Funds—Child and Adult Care Food Program (Finding 2019-401); and
- Timing of Draws of Federal Funds—Twenty-First Century Community Learning Centers (Finding 2019-402).

In addition, we followed up on DPI's progress in addressing Finding 2018-400 of our FY 2017-18 audit (report 19-3). DPI implemented corrective actions to address this finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period.

Finding 2019-400: Timing of Draws of Federal Funds—Child Nutrition Cluster

Finding 2019-401: Timing of Draws of Federal Funds—Child and Adult Care Food Program

Finding 2019-402: Timing of Draws of Federal Funds— Twenty-First Century Community Learning Centers

Criteria:

The Cash Management Improvement Act (CMIA) of 1990, as amended, requires that the State enter into an agreement with the U.S. Department of the Treasury for certain federal programs to ensure that neither the State nor the federal government earns interest income at the expense of the other. This agreement is referred to as the Treasury-State Agreement (TSA). For other federal programs, CMIA regulations in 31 CFR s. 205.33 require the State to minimize the time between when the State draws federal funds from the federal government and when the State disburses funds for federal program purposes. The regulations further specify that the timing and amount of the draws from the federal government are to be as close as administratively feasible to the State's actual cash outlay.

Condition:

To determine the timing of drawing federal funds, the State Controller's Office in the Department of Administration (DOA) uses a report from the State's enterprise resource planning system, STAR, which includes the State's accounting system. This STAR report identifies the earliest date the federal funds should be drawn in addition to the amount that may be drawn, both of which are based on information derived from federal program transactions processed in STAR by DPI and other state agencies. These transactions include those that directly result in a payment as well as other non-payment transactions, such as those that allocate costs.

A payment may be scheduled in STAR to be disbursed at a future date, rather than immediately after the date the transaction was approved in STAR. However, after a payment transaction is approved in STAR, the central federal draw process begins regardless of the scheduled disbursement date. For those payments DPI scheduled in STAR to be disbursed at a future date, particularly those scheduled to be disbursed five days or more in the future, the STAR report indicated the federal funds could be drawn even though the actual STAR disbursement had not yet occurred. DPI indicated that prior to May 2019, it regularly scheduled payment disbursements for aids payments 11 days in the future.

Although compensating controls were identified for major federal programs included in the FY 2018-19 TSA, these compensating controls were not applicable to major federal programs not included in the TSA.

Questioned Costs:

None.

Context:

During FY 2018-19, DOA drew federal funds of approximately \$214.3 million for the Child Nutrition Cluster (CFDA #10.553/10.555/10.556/10.559), \$36.9 million for the Child and Adult Care Food Program (CFDA #10.558), and \$16.2 million for the Twenty-First Century Community Learning Centers (CFDA #84.287) program. We reviewed a selection of draws of federal funds and a selection of expenditure transactions for each program. For each selected item, we compared the date the federal funds were drawn and received from the federal government to the State's scheduled payment disbursement date.

Payments that were scheduled to be disbursed at a future date represented more than 98.0 percent of the payment transactions associated with the Child and Adult Care Food Program, more than 96.0 percent of the payment transactions associated with the Twenty-First Century Community Learning Centers program, and more than 24.0 percent of the payment transactions associated with the Child Nutrition Cluster. Compensating controls were in place for the National School Lunch Program (CFDA #10.555) under the Child Nutrition Cluster because it is included in the TSA.

Effect:

Five days or more elapsing between the date a payment transaction was approved and the date the payment was disbursed indicates that the draw of federal funds was initiated before it was appropriate to do so and, therefore, the State did not minimize the time between drawing and disbursing funds for federal program purposes. For the selected payment transactions we reviewed, certain payment disbursements were scheduled five or more days in the future. For example:

- A payment for the Child Nutrition Cluster was approved in STAR on January 15, 2019, with a scheduled disbursement date of January 28, 2019. The related federal funds were received on January 18, 2019, which was ten days prior to the scheduled disbursement date.
- A payment for the Child and Adult Care Food Program was approved in STAR on April 4, 2019, with a scheduled disbursement date of April 15, 2019. The related federal funds were received on April 5, 2019, which was ten days prior to the scheduled disbursement date.
- A payment for the Twenty-First Century Community Learning Centers program was approved in STAR on September 26, 2018, with a scheduled disbursement date of October 9, 2018. The related federal funds were received on September 27, 2018, which was 12 days prior to the scheduled disbursement date.

Cause:

STAR is a complex system, and the processing that creates the STAR report used by DOA is several steps removed from the entry of a payment transaction, increasing the difficulty of including payment transactions in that report based on the scheduled disbursement date. Because the STAR report DOA used in drawing federal funds is based on the date the transaction was approved in STAR rather than the disbursement date, DOA was unaware of whether scheduled disbursement dates varied significantly from the approved date in the STAR report.

In FY 2017-18, we recommended that DOA correct this deficiency (Findings 2018-100 and 2018-101). In response to our prior-year recommendations, DOA revised procedures in the *Wisconsin Accounting Manual* in March 2019 to explain the need to reduce the time between the draw of federal funds and the scheduled disbursement of funds for federal programs by as much as administratively feasible. However, because the issue was not communicated until March 2019, the control deficiency in DOA's draw process for the federal programs was present for the majority of FY 2018-19. DPI implemented changes beginning in May 2019 to reduce the time between when payments were entered into STAR and when they were scheduled to be disbursed to approximately one week, which it deemed to be administratively feasible. However, the changes DPI implemented were not made until late in FY 2018-19.

☑ Recommendation

We recommend the Wisconsin Department of Public Instruction ensure that the time between the draw of federal funds and the scheduled disbursement of funds for federal programs it administers is reduced by as much as administratively feasible.

Response from the Wisconsin Department of Public Instruction: The Wisconsin Department of Public Instruction agrees with the audit finding and recommendation.

....

Other Agencies

In addition to the departments of Administration, Health Services, Military Affairs, and Public Instruction, we also audited federal programs or followed up on the status of prior audit findings at seven other state agencies. The following is a summary of the work we performed at the departments of Children and Families, Natural Resources, Transportation, Veterans Affairs, Workforce Development, University of Wisconsin System, and Wisconsin Technical College System.

Department of Children and Families

The Wisconsin Department of Children and Families (DCF) administers programs such as adoption assistance, foster care, and child support enforcement. It also administers the Wisconsin Shares child care subsidy program and Wisconsin's work-based public assistance program, Wisconsin Works (W-2). In fiscal year (FY) 2018-19, DCF administered \$618.2 million in federal financial assistance.

For our FY 2018-19 audit, no grants administered by DCF were selected for audit based on risk factors established by *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). However, we followed up on DCF's progress in addressing Findings 2018-200 through 2018-203 of our FY 2017-18 audit (report 19-3), and Finding 2015-022 of our FY 2014-15 audit (report 16-5), which was included in the Summary Schedule of Prior Audit Findings in report 19-3. DCF implemented corrective actions to address our concerns related to Findings 2018-201, 2018-203, and 2015-022, and to partially address Findings 2018-200 and 2018-202. It will be important for DCF to continue to work to resolve these findings. The Summary Schedule of Prior Audit Finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Department of Natural Resources

The Wisconsin Department of Natural Resources (DNR) administers programs related to protecting and enhancing Wisconsin's natural resources, including its air, land, water, forests, wildlife, fish, and plants. In FY 2018-19, DNR administered \$153.7 million in federal financial assistance.

We tested DNR's internal controls and compliance with grant requirements for the Fish and Wildlife Cluster (CFDA #15.605/15.611), which is a type A program. Our audit of this program identified no issues that required reporting.

Department of Transportation

The Wisconsin Department of Transportation (DOT) administers transportation programs, including those affecting highways, bridges, airports, harbors, and railroads. In FY 2018-19, DOT administered \$1.1 billion in federal financial assistance.

For our FY 2018-19 audit, no grants administered by DOT were selected for audit based on risk factors established by Uniform Guidance. However, we followed up on DOT's progress in addressing Findings 2017-500 and 2017-501 of our FY 2016-17 audit (report 18-5), which were included in the Summary Schedule of Prior Audit Findings in report 19-3. DOT implemented corrective actions to address these findings. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period.

Department of Veterans Affairs

The Department of Veterans Affairs (DVA) provides benefits, programs, and services for veterans living in Wisconsin. DVA also operates three veterans homes that provide care for veterans. In FY 2018-19, DVA administered \$50.7 million in federal financial assistance.

We tested DVA's internal controls and compliance with grant requirements for the Veterans State Nursing Home Care (CFDA #64.015) program, which is a type A program. Our audit of this program identified no issues that required reporting.

Department of Workforce Development

The Department of Workforce Development (DWD) administers programs for unemployment insurance, workers' compensation, equal rights in employment and housing, apprenticeship job training, employment services and training, vocational rehabilitation, and other related programs. Excluding unemployment insurance benefits, federal grants funded \$207.7 million of DWD's FY 2018-19 expenditures. In addition, the Wisconsin Unemployment Reserve Fund paid \$387.8 million in regular unemployment insurance benefits and \$0.2 million in federally funded benefits.

We tested DWD's internal controls and compliance with grant requirements for Rehabilitation Services Vocational Rehabilitation Grants to States (CFDA #84.126), which is a type A program. Our audit of this program identified no issues that required reporting.

University of Wisconsin System

The University of Wisconsin (UW) System provides postsecondary academic education for approximately 175,000 students. The System includes 13 four-year universities, 13 two-year branch campuses associated with a university, and UW System Administration. Each of the 13 universities awards bachelor's and master's degrees, and several also confer doctoral degrees. The 13 two-year branch campuses offer general education associate degrees and course credits that transfer to other degree-granting universities. UW System Administration consists of the UW System President's staff who assist the Board of Regents in establishing and monitoring systemwide policies, financial planning for the system, and maintaining fiscal control.

In FY 2018-19, UW System administered \$1.7 billion in federal financial assistance, including \$590.1 million disbursed under the Research and Development Cluster and \$983.1 million administered under the Student Financial Assistance Cluster. For our FY 2018-19 audit, no grants administered by UW System were selected for audit based on risk factors established by Uniform Guidance.

However, we followed up on UW System's progress in addressing Finding 2018-700 of our FY 2017-18 audit (report 19-3). UW System implemented corrective actions to partially address the finding. It will be important for UW System to continue to work to resolve this finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

In addition, we followed up on the progress of UW institutions in addressing Finding 2016-008 of our FY 2015-16 audit (report 17-5), which was included in the Summary Schedule of Prior Audit Findings in report 19-3. UW institutions implemented corrective action to address the finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period.

We also included the Wisconsin Humanities Council in our FY 2018-19 audit of UW System and audited the Promotion of the Humanities—Federal/State Partnership (CFDA #45.129) grant. The Wisconsin Humanities Council is a nonprofit organization associated with UW System, which is responsible for the fiscal and personnel administration of the Humanities Council. We tested internal controls and compliance with grant requirements for the Promotion of the Humanities—Federal/State Partnership grant. Our audit of this grant found no issues that required reporting.

Wisconsin Technical College System

The Wisconsin Technical College System (WTCS) creates policy and provides direction for the 16 technical college districts in the State of Wisconsin; administers state and federal aids; coordinates vocational and technical programs with other state agencies; and coordinates adult education and family literacy services with technical college districts and community-based organizations. In FY 2018-19, WTCS administered \$28.4 million in federal financial assistance.

For our FY 2018-19 audit, no grants administered by WTCS were selected for audit based on risk factors established by Uniform Guidance. However, we followed up on the progress of WTCS in addressing Finding 2018-900 of the FY 2017-18 audit (report 19-3). WTCS implemented corrective actions to address this finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 75 and describes the status of each finding as of the end of our audit period.

....

State of Wisconsin Schedule of Findings and Questioned Costs for the Year Ended June 30, 2019 -

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires the auditor to prepare a schedule of findings and questioned costs that includes the following three sections:

- 1) a summary of the auditor's results;
- 2) findings relating to the financial statements, which are required to be reported in accordance with *Government Auditing Standards*; and
- 3) findings and questioned costs for federal awards.

Section I

Summary of Auditor's Results

As required by Uniform Guidance, the Wisconsin Legislative Audit Bureau is providing the following summary information related to the State of Wisconsin's single audit for fiscal year (FY) 2018-19:

Financial Statements

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified?	Yes
Significant deficiencies identified?	Yes
Noncompliance material to financial	
statements noted?	No

Federal Awards	
Internal control over major programs: Material weaknesses identified? Significant deficiencies identified?	Yes Yes
Type of auditor's report issued on compliance for major programs:	Unmodified for all major federal programs except for Child Nutrition Cluster (CFDA #10.553/10.555/ 10.556/10.559), Child and Adult Care Food Program (CFDA #10.558), and Twenty-First Century Community Learning Centers (CFDA #84.287), which were qualified.
Any audit findings disclosed that are required to be reported in accordance with s. 200.516 (a) of Uniform Guidance?	Yes
Dollar threshold used to distinguish between type A and type B programs:	\$30,000,000
Auditee qualified as a low-risk auditee?	No

The following were major federal programs, determined in accordance with s. 200.518 (b) of Uniform Guidance:

Applicable	
CFDA Number	Major Federal Program/Cluster
10.553/10.555/10.556/10.559	Child Nutrition Cluster
10.557	WIC Special Supplemental Nutrition Program for Women, Infants, and Children
10.558	Child and Adult Care Food Program
12.401	National Guard Military Operations and Maintenance (O&M) Projects
15.605/15.611	Fish and Wildlife Cluster
64.015	Veterans State Nursing Home Care
81.042	Weatherization Assistance for Low-Income Persons
84.126	Rehabilitation Services Vocational Rehabilitation Grants to States
84.287	Twenty-First Century Community Learning Centers
84.367	Supporting Effective Instruction State Grants (formerly Improving Teacher Quality State Grants)
93.069	Public Health Emergency Preparedness

Federal Awards

Section II

Financial Statement Findings

This schedule includes one deficiency in internal control over financial reporting that we consider to be a material weakness and four deficiencies in internal control over financial reporting that we consider to be significant deficiencies. These deficiencies in internal control over financial reporting are required to be reported by auditing standards generally accepted in the United States of America and *Government Auditing Standards*. Findings 2018-001, 2018-006, 2018-007, 2018-008, 2018-009, and 2018-010 from the prior year (report 19-3) are no longer reportable. Repeat findings from report 19-3 are indicated with an asterisk (*).

Finding 2019-001: STAR Security Concerns*

Criteria:

The Department of Administration (DOA) is responsible for the maintenance of the State's enterprise resource planning system, STAR, which includes the accounting, payroll, and purchasing systems for most state agencies. To provide proper internal control, information technology (IT) security policies and procedures are necessary to ensure data stored and processed in STAR are protected from accidental or intentional misuse or destruction. IT controls should be established to prevent inappropriate or inadvertent access to STAR and its related databases, and to provide staff with a consistent methodology for performing their job functions.

The National Institute of Standards and Technology's (NIST) *Special Publication* 800-53r4 discusses the importance of creating policies and procedures, ensuring proper separation of duties, and maintaining a standard for access that seeks to provide a user with least privilege, which requires that only the minimum necessary rights are assigned to complete a task. The DOA STAR Program Office, which is responsible for the overall maintenance and administration of STAR, adopted the security administration policies in the State of Wisconsin *IT Security Policy Handbook*, which are based on the NIST security framework, and developed security procedures in the *STAR Security Administration Handbook*.

Condition:

We have reported concerns related to STAR security since STAR was first implemented in FY 2015-16. During our FY 2015-16, FY 2016-17, and FY 2017-18 audits of STAR, we identified weaknesses in policies, standards, and procedures related to security, as well as areas of inappropriate or excessive access to STAR. To address prior-year recommendations, DOA established policies and procedures related to security, reduced some of the excessive or inappropriate access identified, and implemented an annual user attestation process to review and adjust user access to STAR.

During our FY 2018-19 audit, we reviewed security-related controls over the STAR Finance, STAR Procurement, and STAR Human Capital Management (HCM)

58 - - - Schedule of Findings and Questioned Costs

applications and the related databases. We considered how security-related controls ensured proper access was granted and maintained, and we followed up on recommendations we made as part of our FY 2017-18 audit. Although we found that DOA made progress on our FY 2017-18 recommendations (Finding 2018-005), including reducing access in several areas and implementing new procedures, we continued to identify concerns that need to be addressed. For example, we found that unnecessary access continued to be reassigned for some users because of an automated process that the STAR Program Office did not sufficiently understand. Further, we found the user attestation process did not include for review all user accounts that were expected to be included. We determined that the detailed results of our review were too sensitive to communicate publicly. Therefore, we communicated the results in a confidential interim memorandum to the DOA State Controller's Office (SCO) and the STAR Program Office.

Questioned Costs:

None.

Context:

We completed testing of security administration over the STAR Finance, STAR Procurement, and STAR HCM applications and the related databases. We interviewed staff in the STAR Program Office, SCO, and the DOA Division of Personnel Management to gain an understanding of the security administration policies and procedures, and the steps taken to address recommendations from our FY 2017-18 audit. In addition, we performed queries to test access to selected accounts and roles in STAR, and we requested documentation to test other areas of security administration.

STAR functions include processing vendor payments, accounting for cash receipts, tracking and maintaining employee information, tracking employee time, and processing payroll. STAR is used by SCO and most state agencies to report financial information, monitor budgets, administer federal grants, process payroll, process transactions, and manage assets.

Effect:

Although it can be difficult to determine how IT concerns such as those we identified affect the financial statements and material federal compliance areas, ineffective IT controls in areas such as these may permit controls over STAR to operate improperly and may allow financial statement misstatements and noncompliance to occur and not be detected.

Weaknesses in IT security controls increase the risk that unauthorized or erroneous transactions could be processed or changes could be made to accounting, payroll, and other data in STAR. In addition, failure to provide an appropriate level of protection for systems and data increases the risk that personally identifiable information could be accidentally or maliciously exposed.

Cause:

DOA continues to develop its procedures and controls over the STAR environment, and does not yet have sufficient understanding about the complexities and

intricacies of security in this environment. Because some procedures were not adequately implemented throughout the audit period, risks continued to exist.

☑ Recommendation

We recommend the Wisconsin Department of Administration take corrective actions by June 30, 2020, to address the specific recommendations included in the confidential interim memorandum provided during the audit.

Response from the Wisconsin Department of Administration: The Department of Administration agrees with the finding and recommendation.

Finding 2019-002: Implementation of IT Procedures by the Department of Administration Division of Enterprise Technology*

Criteria:

Under s. 16.97, Wis. Stats., DOA is responsible for the State's IT services, including ensuring that all state data processing facilities develop proper privacy and security procedures and safeguards. As a part of DOA, the Division of Enterprise Technology (DET) operates a data center to provide a variety of services to state agencies, including managing the mainframe for all agencies; managing servers for DOA and other executive branch agencies; and maintaining DOA-related systems. In addition, DET performs programming and security functions including maintaining the infrastructure for STAR.

Because the mainframe and servers contain financial data and confidential information, it is important that DET manage and maintain a secure environment. Managing a secure environment involves developing, approving, and following appropriate policies, standards, and procedures.

As defined by DET, IT policies are formal, brief, high-level statements or plans that reflect an agency's general beliefs, goals, rules, and objectives for a specific subject area. Standards are mandatory actions or rules designed to support policies. Procedures are a documented series of steps that align with policies and standards. Well-written policies, standards, and procedures provide staff with a consistent methodology for performing their job functions.

DET uses the NIST framework as a guide to develop policies, standards, and procedures. Because of the diverse requirements of state agencies, DET's policies, standards, and procedures must comply with Wisconsin Statutes as well as requirements of other laws and standards, such as the Internal Revenue Service (IRS) laws, Criminal Justice Information Services (CJIS) standard, Health Insurance Portability and Accountability Act (HIPAA), Payment Card Industry Data Security Standard (PCI DSS), and Family Educational Rights and Privacy Act (FERPA).

DET's policies and standards are set forth in the State of Wisconsin *IT Security Policy Handbook*, which includes the related standards by reference. In addition to

60 - - - Schedule of Findings and Questioned Costs

establishing procedures to support conformance with its policies and standards, it is also important that DET establish settings that enforce its policies, standards, and procedures. Settings are technical configurations that enforce controls for a computer or group of computers. For instance, password settings can enforce password length, which is prescribed by DET's policies and standards. Implementation of settings enforces the controls that are in place and, therefore, helps to ensure that approved standards are being followed.

Condition:

We first reported concerns regarding a lack of policies, standards, and procedures over the operations of DET's data center during our FY 2014-15 audit. In that fiscal year, and each subsequent fiscal year, we made recommendations for DET to develop policies, standards, and procedures and to address specific concerns we identified in IT practices and settings (Finding 2018-003).

During our FY 2018-19 audit, we found DET had taken steps to address some of the recommendations we made during and subsequent to the FY 2014-15 audit, including the development of IT policies and standards. However, corrective actions have not been fully implemented and, therefore, weaknesses continue to exist in IT security over the operations of DET's data center. Specifically, DET did not complete all corrective actions to address our prior audit recommendations related to completing written procedures, reviewing settings and practices, and completing projects initiated in response to specific concerns we identified. In some areas, the corrective action plan and subsequent updates to that plan indicated that the corrective action would not be completed as of June 30, 2019. In addition, we continued to identify concerns related to DET's implementation of its policies and standards through its procedures and settings. For example:

- DET could not demonstrate that regular reviews were performed of access to the network, equipment, systems, and data in most areas;
- DET did not consistently document written procedures related to resolving failed back-ups or the resolution of failed back-ups that occurred;
- DET did not make security awareness training available during the last six months of FY 2018-19; and
- DET did not document and could not demonstrate approval for all exceptions to policies and standards that it actually employed in practice.

We determined that the detailed results of our review were too sensitive to communicate publicly. Therefore, we communicated the results in a separate confidential communication to the Chief Information Officer in DOA.

Questioned Costs:

None.

Context:

We reviewed the State of Wisconsin *IT Security Policy Handbook* and related standards; interviewed the DOA Chief Information Officer, the DOA Deputy Administrator of Enterprise Operations, the DOA Chief Information Security Officer, and other DOA staff; and evaluated the design or operation of certain security settings and practices.

Most state agencies use computer systems that are located on the mainframe or on servers maintained in the DET data center and that are relied on to complete critical functions, including processing checks, accounting for cash receipts, preparing financial statements, and administering federal grant programs.

Effect:

Procedures and settings that do not align with approved policies and standards weaken the level of security provided by DET. For example, failure to properly manage and maintain a secure environment at the DET data center could result in inappropriate access, which could result in the issuance of erroneous or fraudulent checks or inappropriate viewing of confidential data.

Further, because DET hosts and supports a significant number of executive branch agencies and systems at its data center, risks at the data center can affect the computing resources and data of state agencies. For example, if a data center or the state network is compromised, there is an increased risk that harm could come to any of the systems or data of the agencies that use the data center or network.

Cause:

The policies and standards now followed by DET were approved in October 2018. Although DET has taken steps to implement procedures and review practices and settings to enforce those policies and standards, DET staff indicated that implementation is ongoing and was not completed by June 30, 2019. In some areas, DET staff indicated they were unaware that its policies and standards were not met.

☑ Recommendation

We recommend the Wisconsin Department of Administration take steps to fully complete or update and implement the written procedures, practices, and settings of the Division of Enterprise Technology to enforce its policies and standards, and take corrective action to address the specific concerns communicated during the audit.

Response from the Wisconsin Department of Administration: The Department of Administration agrees with the findings and recommendations.

Finding 2019-003: Department of Administration Information Technology Oversight Responsibilities*

Criteria:

Wisconsin Statutes give DOA responsibility for the State's IT services. Under s. 16.971 (2), Wis. Stats., DOA shall:

- in cooperation with executive branch agencies, establish policies, procedures, and planning processes for the administration of IT services, which executive branch agencies must follow;
- ensure the policies, procedures, and processes address the needs of agencies, other than the Board of Regents of UW System, to carry out their functions; and
- monitor adherence to these policies, procedures, and processes.

Further, s. 16.971 (2), Wis. Stats., requires DOA to provide oversight and monitoring of state agency IT operations, including the responsibility for ensuring:

- management reviews of IT organizations are conducted;
- all executive branch agencies develop and operate with clear guidelines and standards in the areas of IT systems development and employ good management practices and cost-benefit justifications; and
- all state data-processing facilities develop proper privacy and security procedures and safeguards.

In addition, s. 16.973 (3), Wis. Stats., states that DOA shall facilitate the implementation of statewide initiatives, including development and maintenance of policies and programs to protect the privacy of individuals who are the subjects of information contained in the databases of the agencies.

The Information Technology Executive Steering Committee (ITESC), which was initially established in April 2013 through Executive Order 99, and the Wisconsin Information Technology Directors Council (ITDC) work with DOA in fulfilling its responsibilities related to the State's IT services. ITESC members are high-level IT leaders from select agencies, including the largest agencies. The purpose of ITESC is to align enterprise IT deployment with statewide business goals. One of ITESC's stated goals is to create and maintain enterprise IT policies. The ITDC is an interagency group of IT staff that DOA created to encourage information sharing between itself and agency IT leaders at varying levels across the agencies.

DOA uses the NIST framework as a guide to develop and modify executive branch agency policies and standards. NIST is a federal organization that is responsible for establishing standards. Specifically, NIST developed *Special Publication 800-53r4* to "fulfill their statutory responsibilities under the Federal Information Security

Management Act (FISMA) to develop information security standards and guidelines, including minimum requirements for federal information systems." This publication provides information and guidance for all areas that should be considered for maintaining a secure IT environment.

Condition:

We first reported concerns regarding the lack of executive branch agency IT policies and standards during the FY 2015-16 audit. During the FY 2016-17 and FY 2017-18 audits, in addition to recommendations related to the implementation of executive branch agency policies and standards, we recommended DOA take steps to identify, assess, and address risks for the State's IT environment. These steps were to include completion of vulnerability assessments, penetration testing, and a comprehensive risk assessment (Finding 2018-004).

During the FY 2018-19 audit, we found that, in October 2018, ITSEC approved the State of Wisconsin IT Security Policy Handbook, which includes the related standards by reference. Executive branch agencies are expected to comply with these policies and standards. DOA communicated the new policies and standards to agencies using a private state website and discussions at the ITDC meetings. However, DOA did not take specific additional steps to encourage and monitor agency progress toward compliance. For example, DOA did not establish a timeline within which agencies were expected to become compliant with the policies and standards. DOA also did not request self-assessments from agencies regarding their progress in implementing the policies and standards. As of June 30, 2019, executive branch agencies had not fully implemented procedures that conform with the policies and standards. For example, at four agencies we reviewed, procedures had not been developed or effectively implemented to review user access on at least an annual basis to ensure user access remained appropriate in accordance with the principle of least privilege. At three of these agencies, we also found that procedures for initially establishing user access did not demonstrate adequate consideration of the user's needs based on the principle of least privilege.

Although DOA took steps to address some of our other prior audit recommendations, we found additional work is needed. For example, DOA completed some work related to vulnerability assessments and penetration testing. However, DOA's timeline for completing certain steps was revised, including some dates that extended beyond June 30, 2019.

Questioned Costs:

None.

Context:

State agencies use computer systems that DOA is responsible for ensuring are properly secured and are relied on to complete critical functions, including processing checks, accounting for cash receipts, preparing financial statements, and administering federal grant programs. We interviewed the DOA Chief Information Officer, the DOA Deputy Administrator of Enterprise Operations, the DOA Chief Information Security Officer, and other DOA staff to gain an understanding of the

64 - - - Schedule of Findings and Questioned Costs

development of executive branch agency IT policies and standards as well as the steps that have been taken to monitor and provide oversight of executive branch agency IT operations. We also interviewed certain agency IT staff and evaluated the design or operation of certain agency practices and settings, including compliance of these practices and settings with the Wisconsin *IT Security Policy Handbook* and related standards.

Effect:

Because there are connections among agencies in the state's network, weaknesses at one agency can affect security for other agencies. Additionally, failure to monitor agency environments and practices can also lead to vulnerabilities in the state's network, known or unknown, because there is no assurance that all systems are meeting the minimum level of security for the State's IT environment, as established in the State of Wisconsin *IT Security Policy Handbook* and related standards. Weaknesses in the security of the network can lead to inappropriate access to confidential or sensitive data, unauthorized changes to the data within the system, or a failure of the system.

Cause:

DOA completed some monitoring of the executive branch agencies through discussions during ITESC and ITDC meetings. However, these discussions may not provide sufficient information to enable DOA to understand progress across all executive branch agencies in conforming to the State of Wisconsin *IT Security Policy Handbook* and related standards or to identify weaknesses that exist at an agency level and that create a risk for the overall IT environment. DOA also prioritized certain vulnerability and penetration tests over others as well as over the completion of a comprehensive risk assessment. DOA indicated that, as part of the comprehensive risk assessment, it plans to assess the extent to which agencies have conformed to the policies and standards. However, a timeline for fully completing a comprehensive risk assessment has not been established.

☑ Recommendation

We recommend the Wisconsin Department of Administration:

- develop and implement, by March 31, 2020, a plan for monitoring the progress of executive branch agencies in becoming compliant with the State of Wisconsin IT Security Policy Handbook and related standards;
- complete its corrective action plan to fully address recommendations from prior-year Finding 2018-004 within the timeline provided in its June 2019 communication to the Legislative Audit Bureau on the status of corrective actions taken; and
- develop and implement by June 30, 2020, a process to regularly identify, assess, and address risks for the State's IT environment, including vulnerability assessments, penetration testing, and comprehensive risk assessments that assess risk across the IT environment and include ongoing monitoring of agency

compliance with the State of Wisconsin IT Security Policy Handbook and related standards.

Response from the Wisconsin Department of Administration: The Department of Administration agrees with the findings and recommendations.

Finding 2019-004: Financial Reporting for the Transportation Fund

Criteria:

The Department of Transportation (DOT) is responsible for administering transportation infrastructure projects throughout the State, including developing and maintaining roads and bridges. Activity related to transportation infrastructure projects is accounted for in the Transportation Fund, a governmental fund that is reported in the State's CAFR. DOT is responsible for preparing and submitting financial statements and required supplementary information to SCO for inclusion in the State's CAFR. In addition, DOT is responsible for maintaining effective internal controls to ensure the financial information submitted to SCO is fairly presented and that misstatements are prevented, or detected and corrected in a timely manner.

Condition:

DOT's process for preparing and reviewing financial information was not sufficient to prevent, or detect and correct in a timely manner substantive misstatements. For example, DOT staff prepared a new accrual related to intergovernmental revenue under advance contracts. However, the data used to prepare this entry were not adequately evaluated to identify the amounts eligible for accrual.

Questioned Costs:

None.

Context:

We reviewed the FY 2018-19 Transportation Fund financial statements submitted to SCO for inclusion in the State's CAFR and discussed the process used by DOT to compile the Transportation Fund financial statements. We reviewed financial information used to prepare the financial statements and examined supporting documentation.

Effect:

The Transportation Fund financial statements prepared by DOT were misstated. Specifically, we identified that Intergovernmental Revenue was overstated and Due From Other Governments was overstated by \$41.8 million. After we brought this concern to its attention, DOT corrected the misstatements and submitted revised information to SCO.

Cause:

Although DOT implemented a secondary review process related to the compilation of infrastructure information, it did not establish an adequate secondary review of financial information, particularly for new or changing areas. As a result, no secondary review was performed of the new accrual related to intergovernmental revenue.

☑ Recommendation

We recommend the Wisconsin Department of Transportation review its procedures for preparing financial information and implement an adequate secondary review process to ensure:

- increased scrutiny of new or substantively changed areas of financial reporting;
- reasonableness reviews or other checks are performed to identify errors in areas that could have a substantive effect on financial reporting; and
- sufficient documentation of the review process.

Response from the Wisconsin Department of Transportation: The Department of Transportation agrees with the finding and recommendations.

Finding 2019-005: Financial Reporting Process for the Injured Patients and Families Compensation Fund*

Criteria:

The Injured Patients and Families Compensation Fund (IPFCF), which is administered by the Office of the Commissioner of Insurance, insures participating physicians and other health care providers in Wisconsin against medical malpractice claims that exceed the primary insurance thresholds established by statutes. IPFCF is a proprietary fund that is reported in the State's CAFR. IPFCF is responsible for preparing and submitting accurate financial statements and related note information for inclusion in the State's CAFR to SCO. To ensure accurate financial reporting, IPFCF is also responsible for understanding generally accepted accounting principles (GAAP), as promulgated by the *Governmental Accounting Standards Board* (GASB). In addition, IPFCF is responsible for maintaining effective internal controls to ensure the financial information submitted to SCO is fairly presented and that misstatements are prevented, or detected and corrected in a timely manner.

SCO maintains overall responsibility for preparing the State's CAFR and completes a desk review of the financial information submitted to assess the reasonableness of the information. As necessary, SCO provides to, and makes suggested changes for, the preparing agency and the agency is responsible for reviewing and, if appropriate, accepting or confirming the changes.

Condition:

We reported concerns related to the financial reporting process for the IPFCF during our FY 2017-18 audit (Finding 2018-002) and recommended that the fund improve its process for preparing and reviewing financial statements. During our current audit, although we found IPFCF had taken some steps to improve its process, we again identified concerns and found the IPFCF did not fully consider the financial reporting implications of changes to its activity during the year. Although the information IPFCF prepared and submitted to SCO included an appropriate total amount of restricted assets, IPFCF classified a portion of the total restricted assets in an incorrect restricted account. Specifically, we found IPFCF reported \$55.1 million as restricted cash even though IPFCF had only \$34.9 million of cash available to be restricted. During its desk review, SCO recognized that IPFCF did not have sufficient cash available to cover the total restricted assets and made a suggested change. However, the change was incorrect as it eliminated all restricted assets even though IPFCF had assets that met the requirements to be restricted.

In addition, although IPFCF changed its methodology for calculating interest credited to accounts held for the benefit of specific claimants, IPFCF did not prepare an assessment of whether this change in methodology should be classified as a change in an accounting estimate or a correction of an error. Further, it was not evident in the financial information IPFCF submitted to SCO that an assessment had been completed. After we explained the GASB requirements, IPFCF determined that the change in its methodology should be reported as a correction of an error, for which a prior-period adjustment and note disclosure were required.

Questioned Costs:

None.

Context:

We reviewed the FY 2018-19 financial information that IPFCF submitted to SCO for inclusion in the State's CAFR, discussed the process used in compiling the information with IPFCF staff, and examined supporting documentation. We also reviewed communications between IPFCF and SCO regarding the revisions made throughout the preparation and review of the information.

Effect:

The IPFCF financial statements prepared by IPFCF were misstated. We identified the following misstatements related to restricted assets on the Statement of Net Position:

- Cash and Cash Equivalents was overstated by \$12.2 million;
- Restricted and Limited Use Assets: Cash and Cash Equivalents was understated by \$12.2 million;
- Noncurrent Investments was overstated by \$42.9 million; and
- Restricted and Limited Use Assets: Investments was understated by \$42.9 million.

68 - - - Schedule of Findings and Questioned Costs

In addition, we identified that Benefit Expense as well as Total Net Position, Beginning of Year, were overstated by \$11.9 million on the Statement of Revenues, Expenses, and Changes in Fund Net Position due to the change in the interest calculation methodology. We also identified related misstatements on the Statement of Cash Flows and that IPFCF did not prepare the required note information.

After we discussed our concerns with IPFCF, it corrected the misstatements we identified and submitted revised information to SCO.

Cause:

IPFCF did not demonstrate adequate understanding of relevant GAAP requirements in the compilation of financial reporting information or in its application of such requirements, in part, due to significant staff turnover. Although the suggested change SCO made to eliminate restricted assets was incorrect, IPFCF did not adequately question the change. As part of its corrective action plan to address a recommendation from our FY 2017-18 audit, IPFCF contracted with an external accounting firm to provide a secondary review of its financial information. However, in its first year of providing this service, IPFCF may not have adequately educated the external accounting firm on IPFCF's operations and the CAFR financial reporting process to enable the firm to be fully effective in its review of the financial information.

☑ Recommendation

We recommend the Wisconsin Office of the Commissioner of Insurance, Injured Patients and Families Compensation Fund, take steps to adequately understand and appropriately apply financial reporting requirements, including by:

- reviewing the State of Wisconsin GAAP Conversion Manual provided by the Department of Administration State Controller's Office;
- attending relevant training on financial reporting and government accounting standards;
- proactively seeking guidance and clarification from the State Controller's Office related to relevant financial reporting requirements and how to apply those requirements for the Injured Patients and Families Compensation Fund;
- proactively identifying and applying applicable changes in accounting standards; and
- further educating the Injured Patients and Families Compensation Fund's external accounting firm on the Fund's operations and the State's financial reporting process.

Response from the Wisconsin Office of the Commissioner of Insurance: The Office of the Commissioner of Insurance IPFCF accepts the findings and recommendations but has reservations about its ability to be successful when seeking guidance and clarification from the State Controller's Office. The IPFCF will do everything in its power to do so, but the IPFCF cannot guarantee that the State Controller's Office will be open to providing the guidance and clarification requested.

Section III

Federal Award Findings and Questioned Costs

Uniform Guidance requires that audit findings be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action, and for federal agencies and pass-through entities to make a management decision. The specific information that Uniform Guidance requires in audit findings can be found in the agency narratives on the page numbers referenced in this section. The agency narratives also include the agencies' responses. Agencies' corrective action plans for audit findings are included in the Corrective Action Plans chapter, which begins on page 183.

Repeat findings from report 19-3 are marked with an asterisk (*).

AUDITEE SECTION -

State of Wisconsin Summary Schedule of Prior Audit Findings =

Federal Compliance Findings	Financial Statement Findings
pages 76-94	pages 95-105

STATE OF WISCONSIN DEPARTMENT OF ADMINISTRATION

Tony Evers, Governor Joel Brennan, Secretary

Status of Prior Year Audit Findings

Finding: Timing of Draws of Federal Funds (2018-100)

Federal Program: Career and Technical Education—Basic Grants to States (CFDA #84.048), Substance Abuse and Mental Health Services Projects of Regional and National Significance (CFDA #93.243), Social Security-Disability Insurance (CFDA #96.001)

Status of Audit Finding:

Partially Completed

The State Controller's Office immediately implemented revised Wisconsin Accounting Manual procedures that highlighted the need to reduce the timing between the receipt of Federal funds and the program disbursement as much as administratively feasible.

The State Controller's Office is working with the STAR Team to implement an upgrade that will automatically time the creation of Federal grant billing invoices with the date the underlying program disbursement is made. Testing is ongoing, and the target date for implementation is December 2, 2019.

Person responsible for corrective action: Carol Herwig, Deputy State Controller Division of Executive Budget and Finance Carol2.Herwig@wisconsin.gov

Finding: Timing of Draws of Federal Funds (2018-101)

Federal Program: Twenty-First Century Community Learning Centers (CFDA #84.287), Supporting Effective Instruction State Grants (formerly Improving Teacher Quality State Grants) (CFDA #84.367)

Status of Audit Finding:

Corrective Action Taken

The Department of Public Instruction made modifications to their internal processes to ensure that beginning in May 2019, their accounts payable files were interfaced as closely to the disbursement date as administrative feasible.

Person responsible for corrective action: Carol Herwig, Deputy State Controller Division of Executive Budget and Finance Carol2.Herwig@wisconsin.gov

Status of Prior Year Audit Findings

Finding: Collection of Child Care Provider Overpayments (2018-200)

Federal Program: Child Care and Development Fund Cluster (CFDA #93.575, 93.596)

Status of Audit Finding: Partially Corrected

On 6/21/2019, DCF implemented the CSAW Refer to Finance module. This system enhancement was needed in order to refer provider overpayments from the new CSAW system to STAR, so that collection actions could be taken on these debts. All verified overpayments pertaining to MyWIChildCare were batched for STAR Customer ID creation and are being batched to the STAR system for collection beginning July 2019, with the exception of any overpayments that are currently being appealed or still within the 30-day appeal window.

Overpayments entered in the old CSAW system will be pulled from the old CSAW system and entered in the new CSAW system by end of July 2019. These debts will then follow the newly implemented process and will be batched for STAR Customer ID creation and collection beginning August 2019.

Person responsible for corrective action: Junior Martin, Director Bureau of Program Integrity Division of Early Care and Education Junior.Martin@wisconsin.gov

Hope Koprowski, Director Bureau of Finance Division of Management Services Hope.Koprowski@wisconsin.gov

Status of Audit Finding: Partially Corrected

In our communication to you of Feb 6, 2019 we identified a number of strategies we have been working on regarding timely processing of SWICA discrepancies. Since that submission, DHS has continued to prioritize this work.

As we indicated then, DHS formed a cross agency initiative with the Department of Children and Families in an effort to further improve SWICA processing and ultimately increase program integrity. The specific outcomes identified for this partnership include: streamlining the SWICA process to allow for greater consistency our public programs, creating better matches in order to better ensure that the discrepancies that are being created will have an impact to the case and therefore warrant worker action (elimination of false matches), and improve training provided to income maintenance staff to ensure proper understanding of expectations on when and how to work these discrepancies.

Via this initiative as well as other mechanisms, work has continued in 2019 on the identified CARESbased and other solutions. Implementation of these is still planned for CY 2020.

As a result of this work, we expect to see further improvements in timely processing of SWICA discrepancies and increased rates of resolution of these alerts.

Finding: Information Technology Controls at the University of Wisconsin System (2018-700, 2017-003, 2016-12 and 2015-030)

Federal Program: Student Financial Assistance Cluster

Status of Audit Finding as of 6/30/2019: Partially Corrected

This document explains the June 30, 2019 status of the University of Wisconsin (UW) System's Corrective Action Plan (CAP) for finding 2018-700: Information Technology Controls at the University of Wisconsin System within Fiscal Year 2017-18 Single Audit Report 19-3. The following outlines actions over the past year regarding this finding.

Continue development and maintenance of a comprehensive IT security program, including developing systemwide IT security policies and procedures across the remaining critical IT areas, as recommended by National Institute of Standards and Technology publications.

UW System is taking a multi-pronged approach to IT security and is dedicated to prioritizing information security initiatives based on risk reduction and availability of resources. A Governance, Risk and Compliance (GRC) function was recently established (June 2019) within the Office of Information Security (OIS). The objective is to develop a cyber security risk management policy and framework, including a risk register for UW System. Other comprehensive efforts include a first-ever system-wide deployment of a suite of security tools. Capabilities include malware prevention; data loss prevention (alerting and location/movement of UW System's most sensitive data); user entity behavior analytics; next-generation anti-virus; and network traffic analysis. These deployments are expected to be complete by the end of the calendar year. Additional UW System efforts include acceleration of multi-factor authentication for access to high and moderate risk data (including email for all employees) and ultimately to students in the next year, and an aggressive bi-monthly phishing campaign to increase awareness for our user community.

UW System understands the value and need for additional information security policies and procedures and is taking deliberate steps this calendar year to expand policy efforts. The initial focus was revision of existing policies to provide clarity and conform to changes in the National Institute of Standards and Technology (NIST) guidelines. Specifically, security awareness policy revisions were updated in April 2019; updates to the authentication policy and procedures are in the institutional vetting process now; data classification and protection policy and procedures revisions will go to the institutions in September; and updates to the incident response policy and the new system-wide incident response plan will be vetted in October. Additional system-wide information security policies and procedures that are scheduled for publication this calendar year

include: data privacy, asset management, and cyber security risk management.

Lastly, OIS' engagement strategy with information security partners has been extensive. The Associate Vice President of Information Security (IS) is a member of the Wisconsin (WI) Department of Administration (DoA)-led Cyber Strategic and Planning Working Group which through public/private partnerships provides strategic planning, direction and alignment of cyber resources pertaining to data breaches and cyber attacks. Additionally, analysts from OIS attend weekly meetings with the WI Statewide Intelligence Center, including members from the WI Department of Justice; DoA; Department of Military Affairs and the Federal Bureau of Investigation. Threat intelligence, information security initiatives and advisories are shared through these weekly meetings, distribution lists and incident driven emails. This partnership also provides threat intelligence workshops and a variety of cyber security training courses. All the above information and opportunities are shared with UW System institutions.

Provide guidance and training to individual institutions regarding information technology security policies and procedures, as needed.

The Information Security Program document provides guidance to UW System institutions and the corresponding 24-month work plan has evolved to be a living document and is continuously updated as our understanding of risk matures. Additionally, monthly meetings of the Technology and Information Security Council provide further guidance and clarity on policy and procedure implementation, methodologies and best practices. The AVP for IS also meets monthly with the Chief Information Officers as well as the Chief Business Officers to discuss IS strategy and policy, along with status and challenges of policy implementation and other on-going initiatives. Additional engagements include routine meetings with the UW System Chancellors, UW System President, and the Board of Regents.

Training, not solely dedicated to policies and procedures, is another critical component of UW System's IS Program. Professional development and enhancement of knowledge skills and abilities in the IS workforce is also a priority. Opportunities to attend the Gartner Security and Risk Management Conference and Catalyst events have been provided. Several webinars were conducted for UW System personnel and more than 65 individuals participated either in-person or virtually in a learning day at UW-La Crosse in March 2019. These events provided in-depth training on the operation of, and reporting from, the suite of security tools that are currently being deployed.

Complete development of and implement procedures for assessing the level of protection provided for UW Systems and data

In January 2019, UW System institutions completed a system-wide information security maturity assessment providing a tier level score (1-5) across 10 security control areas. Prior to that, risk assessments for six UW System institutions were conducted in spring 2018; the remaining seven institutions will undergo similar external (third party vendor) assessments. These are scheduled to be conducted in July and August 2019 with results reported in September. These results will be reviewed, recommendations prioritized and incorporated into the existing 24-month work plan. Additionally, penetration testing is in the planning stages and will be conducted on specific applications at four UW System institutions in Fall 2019. These efforts over the past two years

form the basis for regular assessment events at each UW System institution a minimum of once every two years.

Status of Prior Year Audit Findings

Finding: Monitoring of Subrecipients- Career and Technical Education- Basic Grants to States (2018-900)

Federal Program: Career and Technical Education-Basic Grants to States (CFDA #84.048)

Status of Audit Finding: Corrective Action Taken

We revised the standard language in the grant award letters to include the Federal Awarding Agency, the CFDA number and name, and the subaward period of performance (start and end date). The award letters are sent on 7/1/XX and indicate the awards are made subject to the availability of federal funds. We also created a template for a second memo to be sent to the grantees after we receive the federal award notification from the US Dept of Education. The second memo informs the grantees of the Federal Award Identification Number, the date of the Federal Award and whether the award is for Research and Development.

We established and documented a formal Risk Assessment Tool to assess the level of monitoring required for each subrecipient. The assessment tool will be used in the review and evaluation of Triannual Reports and grant applications.

We documented our process to ensure a consistent review of triannual reports. The process requires a signature of the person performing the review and the date the review was completed. This documentation will be maintained.

Completed
	Formal process has been defined to conduct monthly reviews on network devices. Initial monthly assessments begin in July 2019. *Note this does not include devices located in the DET data centers that are managed by other entities.	Anticipated completion date 8/30/19
	Penetration Testing for a subset of DET managed devices and networks within the DET data centers was conducted by a third party in Fall of 2018. Additional penetration testing will be conducted by a third party	Anticipated completion to be determined based upon third party availability

LAB Recommendation	DOA Planned Corrective Action	Anticipated Corrective Action Date
	after the vulnerability remediation efforts have been addressed.	
2. Complete a comprehensive risk assessment across all executive branch agencies	 The project charter has been developed. Executive branch agency meetings will be scheduled to create plans and timeline to schedule regular risk assessments. Implementation of vulnerability assessments of the identified systems and data including a process for review of results, prioritization of identified issues, and tracking of remediation activity. Some agencies including DOA have already commenced vulnerability assessments and are working on remediation activities. 	Begin 7/31/19 with anticipated completion 12/31/2019 Begin 12/31/2019 with anticipated completion to be determined, based on plan
	 Implementation of penetration testing of the identified systems and data including a process for review of results, prioritization of identified issues, and tracking of remediation activity. Some agencies have already commenced penetration assessments and are working on remediation activities. 	Begin post vulnerability remediation with anticipated completion to be determined, based on plan
3. Report to the Joint Legislative Audit Committee by March 29, 2019, on DET's plans and timelines to address these ongoing concerns	Will send a written report to the Joint Legislative Audit Committee prior to March 29th, 2019.	Completed

Status of Prior Year Audit Findings

Finding: STAR Security Concerns (2018-005, 2017-007, 2016-010)

Federal Program: n/a

Status of Audit Finding: Partially Completed

In June 2019, the Department of Administration (DOA) created reduced-functionality security roles to address access concerns in the General Ledger and Accounts Payable subsystems. However, the testing and implementation of these new roles was not completed by June 30, 2019. DOA expects to complete testing and implement the roles no later than August 31, 2019.

DOA did not implement the process to require State Controller's Office review of all new and changing security roles by June 30, 2019. DOA expects to implement that process by August 31, 2019.

A report for identifying and periodically reviewing SOD conflicts for HCM was not completed as of June 30, 2019. DOA expects to implement the new report by September 30, 2019.

Finding: STAR Finance Access Concerns at the Department of Revenue (2017-002)

Federal Program: n/a

Status of Audit Finding: Partially Corrected

Person responsible for corrective action: Name: Julie Raes. Administrator Division: Enterprise Services Email address: julie.raes@wisconsin.gov

DOR will perform a reconciliation between STAR HCM and STAR Finance to determine if any terminated employees still have STAR Finance access that did not get removed by the automatic removal process. STAR Finance access will be removed for those terminated employees no later than December 31, 2017. **Corrective Action Taken**

In a two-phased process, the responsibility for maintenance of STAR Finance and STAR HCM accesses will be transferred to the Department's Security Support Unit in the Division of Technology Services (DTS). This change will ensure that STAR system access is treated similar to all other system accesses in DOR.

- By February 23, 2018, DTS Security will have procedures in place for removing STAR Finance and \geq STAR HCM access in a timely manner for terminated employees consistent with existing procedures for removing all other system access. **Corrective Action Taken**
- By April 27, 2018, DTS Security will have procedures in place for adding & changing roles for employees in STAR Finance and STAR HCM. Partially Corrected

Procedures for adding and changing roles for employees in STAR Finance have been prepared as of July 31, 2019. On April 25, 2019, DOR implemented the process to have the Purchasing Card Administrator add, change, and remove purchasing card roles and DTS Security Support approving those security requests. DTS Security Support is scheduled to be trained on adding and changing roles in STAR Finance on August 8, 2019. In the interim, the Financial Manager has continued to add and change roles in STAR Finance.

The Security Support Unit in the Division of Technology Services (DTS) conducts periodic review of agency system accesses to ensure former employees have had their system accesses removed. STAR HCM and STAR Finance will be added to the list of systems for this periodic review by March 31, 2018. **Corrective Action Taken**

In FY2019, the Financial Manager performed periodic reconciliations between STAR Finance Security and the STAR HCM Authorized Position Report to ensure former employees had their STAR Finance access removed. The Financial Manager will continue to perform these periodic reconciliations rather than the DTS Security Support.

Status of Prior Year Audit Findings

Finding: Financial Reporting Process for the Injured Patients and Families Compensation Fund (2018-002)

Federal Program: n/a

Status of Audit Finding: Partially Corrected

OCI hired a Fund accountant on February 3rd, 2019, and in conjunction with management it was decided that external assistance and review of the Fund's financials, in lieu of internal assistance, would provide the highest level of confidence in the Fund's reporting.

On July 11th, 2019 DOA advised the Fund that its request to retain Strohm Ballweg LLP through the Sole Source Waiver process was approved. Strohm Ballweg will assist and review the Funds financials and CAFR submissions for FY19 and going forward.

Notes to the State of Wisconsin Schedule of Expenditures of Federal Awards **■**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose

The Schedule of Expenditures of Federal Awards presents a summary of the State of Wisconsin's expenditures funded by the federal government for the fiscal year ended June 30, 2019. For purposes of the schedule, federal programs have been classified as follows: 1) Individual Programs and Other Clusters, including grants received directly from the federal government and subgrants received from other organizations; 2) the Research and Development (R&D) Cluster, including R&D grants received directly from the federal government and R&D subgrants received from other entities; and 3) the Student Financial Assistance (SFA) Cluster.

Direct federal awards and subgrants are presented for each federal agency by the Catalog of Federal Domestic Assistance (CFDA) number when available in the grant agreements or determinable based on a grant's source and purpose. For grants that did not clearly state a CFDA number, the schedule includes the grant, or a total for several grants, with a CFDA number of N/A for not available. An "other identifying number," when available, is required to be shown if the CFDA number is not available.

Because the schedule presents only a selected portion of the activities of the State, it is not intended to and does not present the financial position or results of operations of the State.

B. Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards has been prepared from the accounting and inventory records of Wisconsin state agencies, including the University of Wisconsin (UW) System, and from federal reports submitted by the state agencies to the various federal grantor agencies. The State's accounting records are maintained on a budgetary basis, in accordance with Wisconsin Statutes. State statutes and state accounting policies require that disbursements be recognized in the fiscal year in which they are recorded for payment, except for certain state employee fringe benefits and selected other items that are recognized in the period to which the payments relate, regardless of when paid. The State's centralized accounting records remain open for a period of time after June 30 to permit the recording of expenditures applicable to the fiscal year ended June 30, in accordance with Wisconsin Statutes.

A timing variance may exist between the recording of federal grant expenditures in the accounting records and the reporting of the expenditures to the federal government or other subgrantor organizations.

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires the Schedule of Expenditures of Federal Awards to include the amount provided to subrecipients under each federal program. The amount provided to subrecipients under each federal program was determined by the state agencies, including UW System.

To eliminate double-counting of "subgrants" between state agencies, the schedule includes expenditures reported by the state agency that received the funds directly from the federal government and does not include expenditures recorded by the "subrecipient agency." However, for subgrants between UW institutions, the schedule includes expenditures reported by UW institutions that received the subgranted funds and does not include expenditures reported by the subgranting UW institutions.

C. State Agencies Included

The following state agencies were included in the scope of the federal compliance portion of the audit. State agencies that administered a major federal program audited during the FY 2018-19 single audit are indicated in **bold**.

- 1. Board for People with Developmental Disabilities (BPDD)
- 2. Board of Commissioners of Public Lands (BCPL)
- 3. Child Abuse and Neglect Prevention Board (CANPB)
- 4. Department of Administration (DOA)

- 5. Department of Agriculture, Trade, and Consumer Protection (DATCP)

The Wisconsin Humanities Council is a nonprofit organization associated with UW System. Through a contract with the Wisconsin Humanities Council, UW System is responsible for fiscal and personnel administration of the Council. At the request of the Wisconsin Humanities Council, the Council was included as a unit within UW System.

Federal awards administered by the Wisconsin Housing and Economic Development Authority, the Wisconsin Economic Development Corporation, and the University of Wisconsin Hospitals and Clinics Authority were not included in the scope of this audit. These entities had single audits performed by other auditors.

2. USE OF DE MINIMUS COST RATE

No state agency has elected to use the 10 percent de minimis cost rate for indirect costs.

3. FEDERAL SANCTIONS AND DISALLOWANCES

There are actual or potential federal sanctions and disallowances for the Title IV-B (CFDA #93.556) and IV-E (CFDA #93.658) programs, the Medical Assistance (MA) Program (CFDA #93.778), and the Community Development Block Grants/State's Program and Non-Entitlement Grants in Hawaii (CDBG) (CFDA #14.228) program.

A. Penalty for Titles IV-B and IV-E

In April 2010, the U.S. Department of Health and Human Services' Administration for Children and Families (ACF) conducted a Child and Family Service Review (CFSR) of, among other things, the State's child welfare program. ACF found that DCF was not meeting federal requirements in several areas. In response to the CFSR findings, DCF developed, and ACF approved, a Program Improvement Plan (PIP) with measurement data goals. DCF had until March 31, 2014, to achieve all measurement data goals. In August 2015, ACF informed DCF of a \$1,869,784 penalty for failure to meet all of the measurement data goals required by the approved PIP. In September 2015, DCF repaid to the federal government \$1,505,057 of Title IV-B funds and \$364,727 of Title IV-E funds. However, based on subsequent examination of the penalty assessment documentation, DCF believes that the penalty should have been \$1,757,925, which includes \$1,399,441 of Title IV-B funds and \$358,484 of Title IV-E funds. DCF reclaimed \$6,243 of Title IV-E funds on the March 2016 claim. DCF is still awaiting the \$105,616 refund of Title IV-B funds from ACF.

B. Sanction for the Health Check/Other Services—MA Program

In September 2013, DHS received the final report from the U.S. Department of Health and Human Services' Office of Inspector General (OIG) recommending a disallowance related to Health Check/Other Services, a program for which DHS claims Medicaid reimbursement for treatment costs for prior-authorized eligible children in Wisconsin residential care centers. The report indicated that DHS used a cost allocation methodology that did not comply with federal requirements. The OIG recommended that DHS return \$22,868,628 to the federal government for the time period from October 1, 2004, through September 30, 2006. DHS did not agree with the recommendation and sent a response to the Centers for Medicare and Medicaid Services (CMS) dated October 9, 2013. DHS continues to have discussions with CMS on this issue. DHS provided additional information to CMS on September 26, 2014, and again on July 31, 2019.

C. Reporting and Refunding the Federal Share of Medicaid-Related Settlements and a Judgment

On August 14, 2018, DHS received a draft report from the U.S. Department of Health and Human Services' OIG recommending a disallowance related to the Medicaid Program. The OIG review covered the period from October 2008 through September 2016. The OIG concluded that DHS did not report and refund the full federal share of Medicaid related settlements and judgments in the amount of \$27.6 million. DHS agrees in part with the proposed findings and recommendations but does not concur with the amount recommended to be refunded and asserts that the amount to be refunded is \$6.1 million. DHS sent a formal response to the U.S. Department of Health and Human Services' OIG on September 14, 2018. DHS continues to have discussion with CMS on this issue. DHS provided additional information to CMS on May 21, 2019.

D. Disallowances for Community Development Block Grant/State's Program and Non-Entitlement Grants in Hawaii

The U.S. Department of Housing and Urban Development (HUD) provided funding to the State through the CDBG program. Through FY 2010-11, the former Department of Commerce was the state agency responsible for subgranting HUD funds to units of local government. In FY 2011-12, DOA assumed responsibility for administering CDBG funds thereafter. In FY 2015-16, HUD issued a finding of noncompliance related to the State's closeout system and directed the State to undertake a review of old, open activities. DOA took corrective action to close out activities as possible, reporting the status of its efforts to HUD on a periodic basis. In late FY 2017-18, HUD performed an on-site review of those activities and, in FY 2018-19, advised that it would require DOA to reimburse the State's local account with nonfederal funds in the amount of \$7.3 million and continue to collect \$2.2 million that is being repaid by the units of local government. After additional discussions with HUD, in December 2019 the State requested that HUD approve a \$7.3 million voluntary grant reduction over a two-year period to satisfy the reimbursement requirement from HUD.

E. Provider Overpayments—MA Program

The FY 2017-18 single audit report cited DHS for failure to comply with federal regulations and return to the federal government its share of MA Program provider overpayment amounts it has identified and communicated to providers. The CMS letter, dated September 17, 2019, requested DHS return these funds. DHS does not agree with the finding, which addresses repayment of federal funds for overpayments identified by the MA program, as it relates to the overpayment's date of discovery when not resulting from fraud. In addition, the circuit court issued an injunction in September 2016. The injunction was reaffirmed in March 2017 and it prohibits DHS from recovering payments for noncompliance with MA program requirements other than those set forth in statute. In July 2019, the circuit court ruled in favor of DHS, but the plaintiffs petitioned the Supreme Court for review of the case in December 2019.

F. Federal Participation for 1915(i) Services

In October 2019, DHS received notification from the U.S. Department of Health and Human Services requesting that DHS refund \$9,591,714 related to the Medicaid program. The U.S. Department of Health and Human Services concluded that Wisconsin's cost settlements related to the 1915(i) Community Recovery Services-Home and Community Based Services-Psychosocial Rehabilitation Program for the period January 15, 2010, to December 31, 2014, were not supported by a

176 ... Notes to the Schedule of Expenditures of Federal Awards

CMS-approved cost reporting methodology as required by Wisconsin's state plan amendment transmittal number #09-017.

4. FOOD COMMODITIES

Food commodities distributed during the fiscal year are reported as expenditures in the Schedule of Expenditures of Federal Awards under the various federal programs that distributed the commodities. The value of food commodities distributed during the fiscal year and the amount of food commodities on hand as of June 30, 2019, are shown in the following table for each program distributing food commodities.

Total		\$37,095,714	\$161
10.569	Emergency Food Assistance Program (Food Commodities)	11,712,855	0
10.559	Summer Food Service Program for Children	86,336	0
10.555	National School Lunch Program	\$25,296,523	\$161
CFDA Number	Federal Program	Distributed	Inventory Balance June 30, 2019

Food Commodity Assistance

5. WIC SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN REBATES

During FY 2018-19, DHS received \$23,014,878 in cash rebates from infant formula manufacturers from the sale of formula to WIC participants (CFDA #10.557). Rebate contracts with infant formula manufacturers are authorized by 7 CFR s. 246.16 (m) as a cost-containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. Applying the rebates received to such costs enabled DHS to extend program benefits to 33,072 more people than could have been served during FY 2018-19 in the absence of the rebate contracts.

6. IMMUNIZATION COOPERATIVE AGREEMENTS

The value of vaccines distributed on behalf of the Wisconsin Immunization Program during FY 2018-19 was \$51,535,119. This amount is included as expenditures in the Immunization Cooperative Agreements (CFDA #93.268) program in the Schedule of Expenditures of Federal Awards.

7. COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

The Community Development Block Grants/State's Program and Non-Entitlement Grants in Hawaii (CFDA #14.228) program provides funds to local units of government to complete infrastructure and facility projects or to grant or loan funds to businesses to assist with job creation and retention, or to homeowners or landlords to assist with housing rehabilitation and homebuyer assistance. Loan repayments received by units of local government in excess of certain limits must be returned to the State. Included in the Schedule of Expenditures of Federal Awards as expenditures of the program is a total of \$1,202,656 that was supported by funds returned to the State.

8. UNEMPLOYMENT INSURANCE

FY 2018-19 expenditures in the Schedule of Expenditures of Federal Awards for Unemployment Insurance (CFDA #17.225) include \$387,762,803 in benefits funded by the Wisconsin Unemployment Reserve Fund; \$151,563 in federally funded benefits; and \$66,991,526 in federally funded administrative costs.

9. HIGHWAY PLANNING AND CONSTRUCTION

Expenditures in the Schedule of Expenditures of Federal Awards for Highway Planning and Construction (CFDA #20.205) include \$1.6 million in project charges that have been incurred in excess of the federally approved project budget amount. DOT will seek federal approval for increases to project budgets, and federal reimbursements are expected in the next fiscal year.

10. LOAN FUNDS FROM THE FEDERAL HIGHWAY ADMINISTRATION

DOT received a total of \$1,500,000 through FY 2004-05 from the Federal Highway Administration under Highway Planning and Construction (CFDA #20.205) to establish a revolving loan fund to assist local government transit and highway projects. This fund consists of federal contributions, agency match, and loan repayments collected from borrowers. Loans outstanding from all funding sources as of June 30, 2019, totaled \$2,920,107 and are included in the federal expenditures reported in the Schedule of Expenditures of Federal Awards.

11. DONATION OF FEDERAL SURPLUS PERSONAL PROPERTY

DOA is responsible for administration of the Donation of Federal Surplus Personal Property (CFDA #39.003) program. DOA receives and distributes the federal surplus property. Reported federal expenditures of \$40,937 in the Schedule of Expenditures of Federal Awards for this program represents the fair value of property distributed by DOA during FY 2018-19. During FY 2018-19, property with a fair value of \$40,937 was received by DOA and, as of June 30, 2019, property with a fair value of \$0 was on hand. The fair value of the property is calculated at 22.47 percent of the property's original acquisition cost based on guidance provided by the U.S. General Services Administration.

12. CAPITALIZATION GRANTS FOR CLEAN WATER STATE REVOLVING FUNDS AND CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS

The Environmental Improvement Fund is an enterprise fund of the State of Wisconsin and is jointly administered by DNR and DOA. Included in the Environmental Improvement Fund is the Clean Water Fund Program, funded primarily by the federal government under the Capitalization Grants for Clean Water State Revolving Funds (CFDA #66.458) program, and the Safe Drinking Water Loan Program, funded primarily by the federal government under the Capitalization Grants for Clean He Capitalization Grants for Drinking Water State Revolving Funds (CFDA #66.468).

Federal reporting requirements for the Clean Water Fund Program and the Safe Drinking Water Loan Program include financial statements prepared in accordance with generally accepted accounting principles, as well as information regarding loan recipients, loan amounts, loan terms, project categories of eligible costs, and similar details on other forms of assistance. DNR and DOA provided this information to the U.S. Environmental Protection Agency in the following documents and formats:

- the Environmental Improvement Fund's audited financial statements, prepared by DOA in accordance with accounting principles generally accepted in the United States, including supplementary information specific to the Clean Water Fund Program;
- the Clean Water Fund Program and Safe Drinking Water Loan Program intended use plans, prepared by DNR;
- the Clean Water Fund Program and Safe Drinking Water Loan Program annual reports, prepared by DNR;

- Annual National Information Management System online submittals by DNR for the Clean Water Fund Program and Safe Drinking Water Loan Program;
- monthly Federal Funding Accountability and Transparency Act (FFATA) reporting by DNR; and
- quarterly data entry into the Clean Water Benefits Reporting Database and the Drinking Water Project Benefits Reporting Database by DNR.

Copies of these documents are available from: Wisconsin Department of Natural Resources Bureau of Community Financial Assistance P.O. Box 7921 Madison, Wisconsin 53707

13. STATE ENERGY PROGRAM REVOLVING LOAN FUND

The portion of the State Energy Program (CFDA #81.041) funded by the American Recovery and Reinvestment Act (ARRA) established a revolving loan fund to provide loans to business organizations. Because the federal government is at risk for these loans until they are repaid, Uniform Guidance requires the value of federal awards expended to include these outstanding loan balances. The following table shows the loan activity and balances related to FY 2018-19.

State Energy Program Revolving Loan Fund

CFDA Number	Federal Program	Loan Balance June 30, 2018 ¹	Loans Disbursed	Loan Repayments	Loan Write-Offs Recovered	Loan Balance June 30, 2019
81.041	State Energy Program Revolving Loan Fund	\$11,494,811	\$0	\$1,246,475	\$0	\$10,248,336

¹ This amount does not agree with the June 30, 2018 loan balance of \$11,899,218 reported in the FY 2017-18 single audit report (report 19-3). During FY 2018-19, the Public Service Commission went through a reconciliation process and this amount was adjusted by \$404,407 to reflect the actual balance as of June 30, 2018.

14. FEE-FOR-SERVICE PROGRAMS AND FIXED-PRICE CONTRACTS

State agencies may receive fees for services or reimbursement under fixed-price contracts with the federal government or other subgrantor organizations. Actual costs to provide the services are not required to be reported to the federal government or other subgrantor organizations. The schedule includes actual amounts charged to the fixed-price contracts. These amounts may be more than, equal to, or less than the contract funds received from the federal grantor agency or other subgrantor organizations.

15. STUDENT LOANS COLLECTED BY THE UNIVERSITY OF WISCONSIN SYSTEM

Federal Perkins Loan Program—Federal Capital Contributions (CFDA #84.038) The amount in the Schedule of Expenditures of Federal Awards includes the outstanding balance of loans receivable as of June 30, 2019, as well as immaterial amounts of administrative costs incurred during the fiscal year.

Nurse Faculty Loan Program (NFLP) (CFDA #93.264) The amount in the Schedule of Expenditures of Federal Awards includes the outstanding balance of loans receivable as of June 30, 2019.

Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students (CFDA #93.342)

The amount in the Schedule of Expenditures of Federal Awards includes the outstanding balance of loans receivable as of June 30, 2019, as well as immaterial amounts of administrative costs incurred during the fiscal year.

Nursing Student Loans (CFDA #93.364)

The amount in the Schedule of Expenditures of Federal Awards includes the outstanding balance of loans receivable as of June 30, 2019, as well as immaterial amounts of administrative costs incurred during the fiscal year.

16. OTHER STUDENT LOAN PROGRAMS

UW System participates in Federal Direct Student Loans (CFDA #84.268), a program that makes interest-subsidized or unsubsidized Stafford loans available to students, or PLUS loans available to graduate or professional students or to parents of dependent students. Federal Direct Student Loans are reported in the Student Financial Assistance Cluster. Loan funds are provided by the U.S. Department of Education, and UW institutions are responsible for disbursing the loans. The Federal Direct Student Loans amounts disbursed to students during FY 2018-19 are reported in the Schedule of Expenditures of Federal Awards. However, the total outstanding loan balance for the Federal Direct Student Loans program is maintained by the U.S. Department of Education, which is responsible for loan collection. Therefore, the outstanding loan balance is not included in the Schedule of Expenditures of Federal Awards.

17. STUDENT FINANCIAL ASSISTANCE CLUSTER ADMINISTRATIVE COST ALLOWANCE

Included in the Schedule of Expenditures of Federal Awards are the total expenditures for the administrative cost allowance provided by Federal Supplemental Educational Opportunity Grants (CFDA #84.007), the Federal Work-Study Program (CFDA #84.033), the Federal Perkins Loan Program—Federal Capital Contributions (CFDA #84.038), and the Federal Pell Grant Program (CFDA #84.063). The actual administrative cost allowance amount earned during the award year is not always determined by each UW institution for each program. These amounts are reported as either "Administrative Cost Allowance" or included with the individual program in the Schedule of Expenditures of Federal Awards.

18. PROGRAM INCOME

In some cases, program income related to federal grants is deposited in federal grant accounts and is spent for activities related to the grants. Certain program income accounts were identified by the state agencies, including UW System, and excluded from the Schedule of Expenditures of Federal Awards. However, the Schedule of Expenditures of Federal Awards includes an unknown amount of expenditures funded by program income sources and not funded directly by federal grants.

Corrective Action Plans –

Tony Evers, Governor Joel Brennan, Secretary Brian Pahnke, Administrator

Corrective Action Plan

Finding 2019-001: STAR Security Concerns

Planned Corrective Action:

No later than December 30, 2019, the Department of Administration will appropriately reduce user access to the General Ledger module by implementing secondary roles and update password settings related to the STAR Finance and HCM databases.

No later than March 31, 2020, the Department of Administration will review and update its annual user attestation procedure to ensure a comprehensive review of access to STAR is performed for the next review, adjust access as necessary as a result of the review, and maintain documentation of all access reviews.

No later than June 30, 2020, the Department of Administration will develop and implement written procedures to review access automatically assigned and verify appropriateness of the access.

The Department of Administration has already completed corrective actions for some of the specific recommendations in the confidential interim memoranda and will complete the corrective actions for all other recommendations no later than June 30, 2020.

Anticipated Completion Date: June 30, 2020

Persons responsible for corrective action: Tim LeFave, STAR Program Office Director Department of Administration TimothyD.LeFave@wisconsin.gov

Corrective Action Plan

Finding 2019-005: Financial Reporting Process for the Injured Patients and Families Compensation Fund

Planned Corrective Action:

LAB has proposed that IPFCF take the following steps to "adequately understand and appropriately apply financial reporting requirements" by:

- 1. Reviewing the State of Wisconsin GAAP Conversion manual.
- 2. Attend relevant training on financial reporting and government accounting standards.
- 3. Proactively seeking guidance and clarification from the SCO related to relevant financial reporting requirements and how to apply those for the IPFCF.
- 4. Proactively identify and apply applicable changes in accounting standards.
- 5. Further educating the IPFCF's external accounting firm on the IPFCF's operations and the States financial reporting process.

The Fund has taken/will take the following steps:

Item#1: Both the IPFCF internal and external staff have a copy of the GAAP conversion manual and will be reviewing it cooperatively prior to the FY'20 CAFR filing.

Item #2: The IPFCF internal accountant has joined the Government Finance Officers Association (gfoa.org) and will be attending relevant training sessions. The Fund also discussed with management at SCO if there was any CAFR training available. The Fund was told that although there is no training available currently, they are anticipating offering some form of training in 2020 which the Fund and, if allowed, the external accountant will attend.

Item #4: The Fund will be utilizing the vast resources of the GFOA, along with any information provided by SCO, to stay up to date on relevant changes. This information will be shared with our external accountants.

Item #5: The Fund has already set up the following with its external accountants:

- Master Spreadsheet with location of all source documents
- Quarterly CAFR spreadsheet and Stand-Alone Financial Spreadsheet
- Quarterly meetings to review quarterly trial balances of both the CAFR and Stand-Alone Financials
- Attendance at the Finance/Audit & Actuarial Committees of the Board of Governors of the IPFCF

Fund Management has reservations regarding Item #3 as the relationship between SCO and the Fund is not collaborative in nature and historically looking to SCO for assistance and guidance has not been successful.

Fund management expressed their concerns to the management of SCO during the current CAFR year, recognizing that inherently there will always be philosophical differences between SCO and the Fund as

190 ••• • CORRECTIVE ACTION PLANS

they represent two fundamentally different entities, but acknowledging that the Fund does participate in the CAFR and needs to work with SCO, as does the SCO with the Fund. Management will reach out to SCO management in January to attempt to find common ground between

the two entities and follow-up on the proposed CAFR training.

Anticipated Completion Date: September 30th, 2020 Brynn Bruijn-Hansen, IPFCF Manager Brynn.bruijnhansen@wi.gov

Tony Evers, Governor Joel Brennan, Secretary Susan Brown, Division Administrator

Corrective Action Plan

Finding 2019-100: Internal Controls Over Reporting

Planned Corrective Action:

The Department of Administration (DOA) will develop and implement procedures to regularly review HE Plus queries to ensure the accuracy of data used in the preparation of federally required reports.

Anticipated Completion Date:

Development of procedures is anticipated to be completed by June 30, 2020, with implementation of procedures for each federally required report anticipated to be completed by its first report due date following June 30, 2020.

Person responsible for corrective action:

Sue Brown, Administrator Division of Energy, Housing and Community Resources Susan.Brown@wisconsin.gov

State of Wisconsin Department of Health Services

Tony Evers, Governor Andrea Palm, Secretary

DATE:	February 13, 2020
TO:	Sherry Haakenson, Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Deputy Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Response to Interim Audit Memos - Computer Data Matches

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Case File Documentation –Medical Assistance Program and Computer Data Matches. This is the Department's response.

Recommendation (2019-300) Computer Data Matches

We recommend the Wisconsin Department of Health Services:

• We recommend the Wisconsin Department of Health Services implement the measures that it identified to assist caseworkers in resolving data match discrepancies in a timely matter, which include adding CARES system enhancements and increased automation for discrepancies generated from SWICA data matches as well as providing training to caseworkers.

Wisconsin Department of Health Services Response:

The Wisconsin Department of Health Services agrees with the audit finding and recommendation.

In DHS' July 2019 response, we described a number of strategies being pursued to address timely processing of SWICA discrepancies. One of these strategies is an information systems project which includes a number of system enhancements and data exchange improvements. The project is scheduled to implement in early summer of 2020. One component of that project may be delayed to fall 2020 due to work being done to update a data exchange agreement with DWD.

The system changes and other identified strategies should result in further improvements in timely processing of SWICA discrepancies and increased rates of resolution of these alerts, with the following anticipated outcomes:

- Streamlining the SWICA process to allow for greater consistency
- Improving the timeliness of data exchange information received

1 West Wilson Street • Post Office Box 7850 • Madison, WI 53707-7850 • Telephone 608-266-9622 • www.dhs.wisconsin.gov Protecting and promoting the health and safety of the people of Wisconsin

- Creating better matches in order to better ensure that the discrepancies that are being created will have an impact to the case and therefore warrant worker action (elimination of false matches)
- Improving training provided to income maintenance staff to ensure proper understanding of expectations on when and how to work these discrepancies.

Anticipated Completion Date: Implementation of system initiatives planned for summer and fall of CY 2020.

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Timing of Draws of Federal Funds. This is the Department's response.

☑ <u>Recommendation (2019-301) Timing of Draws of Federal Funds-Public Health Emergency</u> <u>Preparedness</u>

☑ <u>Recommendation (2019-302) Timing of Draws of Federal Funds-Immunization Cooperative</u> <u>Agreements</u>

<u> Recommendation (2019-303) Timing of Draws of Federal Funds-Block Grants for Community</u> <u><i>Mental Health Services</u>

We recommend the Wisconsin Department of Health Services:

• <u>We recommend the Wisconsin Department of Health Services work with the Wisconsin</u> <u>Department of Administration to ensure compliance with federal cash management</u> <u>requirements, including by reducing the time between the draw of federal funds and the</u> <u>scheduled disbursement of funds for federal programs it administers by as much as</u> <u>administratively feasible.</u>

Wisconsin Department of Health Services Corrective Action Plan:

In December 2019, DOA implemented a system update to STAR that does not send accounts payable transactions to the federal grant draw report until the supplier has been paid. DHS did not instruct staff to hold transactions in an attempt to line up payments as close to the payment date as possible prior to December 2019 over concerns that it could lead to lost invoices, missed payments, or other problems that could stem from manual processes.

In addition, research shared by LAB during the prior audit indicated that this issue affected no aids payments and fewer than 5% of administrative payments at DHS for grants LAB reviewed during fiscal

The lack of materiality to our operations was another factor in DHS not implementing manual steps to intervene in the payment process.

State of Wisconsin Department of Health Services

Tony Evers, Governor Andrea Palm, Secretary

DATE:	March 2nd, 2020
TO:	Sherry Haakenson, Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Deputy Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan to Interim Audit Memos - Monitoring of Subrecipients

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Monitoring of Subrecipients. This is the Department's response.

☑ <u>Recommendation (2019-304) Monitoring of Subrecipients–Public Health Emergency Preparedness</u> <u>Program</u>

We recommend the Wisconsin Department of Health Services develop and implement policies and procedures and maintain documentation to ensure compliance with Uniform Guidance subrecipient monitoring requirements, including:

- *a.* <u>Ensuring that all required award information is communicated in all subrecipient</u> <u>agreements;</u>
- b. <u>Developing written subrecipient monitoring procedures to identify what</u> monitoring steps are necessary when risks greater than low are identified from the risk assessment process:
- *c.* <u>Implementing a tracking method to ensure that all subrecipient risk assessments</u> <u>are completed; and</u>
- d. <u>Maintaining documentation of all subrecipient monitoring activities conducted.</u>

Wisconsin Department of Health Services Corrective Action Plan:

a. The Wisconsin Department of Health Services has implemented a centralized contracting procedure as of SFY19 to ensure compliance with the Uniform Guidance requirements regarding consistent communication of all required award information. The Division Public Health – Office of Preparedness and Emergency Health Care (DPH-OPEHC) intends to fully participate in contract centralization, and has already done so with its SFY19 contracts. DPH-OPEHC understands the requirements to ensure compliance with Uniform Guidance award information requirements, including the use of Department templates that include required Uniform Guidance language.

- b. DPH-OPEHC recognizes the need to be prepared to address risks greater than low among potential subrecipients. In SFY19, the Office developed a draft subrecipient monitoring plan intended to address all aspects of subrecipient monitoring. The Office will update that plan to incorporate information from the DHS Bureau of Procurement and Contracting as presented in their Operating Standard OS-503.0.0 and their Policy and Procedure document PP-503.0.0, both of which address subrecipient monitoring with the intention of complying with Uniform Guidance. The DHS-OPEHC subrecipient monitoring plan will be updated to specifically include actions to take based on a subrecipient's assessed risk. These actions will be written in consultation with the Bureau of Procurement and Contracting's subject matter experts.
- c. The Wisconsin Department of Health Services has implemented a centralized contracting procedure as of SFY19 to ensure compliance with the Uniform Guidance requirements regarding completion of subrecipient risk assessments. The Division Public Health Office of Preparedness and Emergency Health Care (DPH-OPEHC) intends to fully participate in contract centralization, and has already done so with its SFY19 contracts. Additionally, fiscal and administrative staff within DPH-OPEHC will develop an internal tracking document to ensure that completion of the risk assessments is being tracked at the program level as well as through the centralized contract process.
- d. DPH-OPEHC recognizes the need to better document subrecipient monitoring activities to ensure compliance with grant requirements. In SFY19, the Office developed a draft subrecipient monitoring plan intended to address all aspects of subrecipient monitoring. The Office will update that plan to clearly enumerate the steps involved in subrecipient monitoring and the related documentation process with the intention of complying with Uniform Guidance. Additionally, fiscal and administrative staff within DPH-OPEHC will develop an internal tracking document which will be completed annually to ensure that subrecipient monitoring activities are being completed and thoroughly documented.

TO:	Sherry Haakenson, Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Deputy Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan to Interim Audit Memos – Security for Medical Assistance Program IT Systems

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Security for Medical Assistance. This is the Department's response.

☑ <u>Recommendation (2019-305) Security for Medical Assistance Program IT Systems</u>

We recommend the Wisconsin Department of Health Services ensure that it adequately safeguards information technology systems used in administering the Medical Assistance Program, including by:

- *a.* <u>Developing and implementing information technology policies and procedures</u> <u>that comply with federal regulations and stat policies and procedures;</u>
- *b.* <u>Establishing specific timelines for remediation of security weaknesses identified;</u> <u>and</u>
- *c.* <u>Monitoring that corrective actions to remediate security weaknesses are taken in</u> <u>a timely manner.</u>

Wisconsin Department of Health Services Corrective Action Plan:

Department of Health Services (DHS) has worked with DXC since the release of the February 2018 security assessment report to resolve security weaknesses and implement compensating controls. While there were no service level agreement (SLA) violations, DHS communicated concerns to DXC when remediation timelines were extended. These discussions along with enhanced security requirements in the new Medicaid Management Information System (MMIS) contract with DXC led to improved remediation project tracking and completion.

There is no indication the extension of timelines for resolving weaknesses identified in the security risk assessment led to inappropriate access that resulted in the issuance of erroneous or fraudulent payments, ineligible program participants, or inappropriate viewing of confidential data. Of the 14 security

DHS will continue working with DXC to close the remaining weakness assessed as high and medium. These efforts include implementing a continuous monitoring framework based upon NIST guidelines and standards. As part of these processes, DHS will review the proposed remediation project plans, closure artifacts, proposed compensating controls, and track their progress on a monthly basis to ensure the deliverables and milestones are met. SLAs related to IT security in the MMIS contract with DXC will be enforced.

Anticipated Corrective Action Completion Date:

Implement continuous monitoring framework and complete Plans of Action and Milestones (POAM) for remaining weaknesses assessed as high and medium identified in February 2018 security assessment by May 30, 2020.

DATE:	March 10th, 2020
TO:	Sherry Haakenson, Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Deputy Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan to Interim Audit Memos – Medical Assistance Program Provider Overpayments

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Medical Assistance Program Provider Overpayments. This is the Department's response.

<u>Recommendation (2019-306) Medical Assistance Program Provider Overpayments</u>

We again recommend the Wisconsin Department of Health Services comply with the federal regulations and return to the federal government its share of Medical Assistance Program provider overpayment amounts it has identified and communicated to providers.

Wisconsin Department of Health Services Corrective Action Plan:

DHS continues to object to LAB's finding that OIG "identified" overpayments to Medicaid providers. Medicaid overpayments are not identified until a provider has exhausted all appeal rights. From March 2017 until August 2019, DHS was enjoined by the Waukesha Circuit Court from proceeding to the identification stage of an audit, except in very limited circumstances.

Audits at the preliminary stage do not "identify" overpayments. Often, preliminary overpayment amounts are reduced after providers submit rebuttal documentation.

Since September 2019, DHS has requested a meeting or conference call with the Centers for Medicare and Medicaid Services (CMS) to discuss LAB Finding 2018-305. In January 2020, CMS agreed to have a conference call with DHS-OIG staff and attorneys from the DHS Office of Legal Counsel. That call was scheduled for February 7, 2020 at 1:00 pm. Approximately one hour before the call, CMS canceled the conference call and indicated they would reschedule. To date, the call has not been rescheduled.

DHS's position remains the same. Overpayments could not have been identified during the injunction period, because overpayments are never identified until a provider has been given notice of the opportunity for a fair hearing.

1 West Wilson Street • Post Office Box 7850 • Madison, WI 53707-7850 • Telephone 608-266-9622 • www.dhs.wisconsin.gov Protecting and promoting the health and safety of the people of Wisconsin Depending on the outcome of conversations with CMS, DHS is reserving the right to file an appeal with the Departmental Appeals Board at the U.S. Department of Health and Human Services.

On July 31, 2019, the Wisconsin Court of Appeals overturned the circuit court decision and removed the injunction from DHS. Since that time, DHS-OIG has collaborated with OLC to begin finalizing the audits that were stalled during the injunction period. Once providers have been given notice of the opportunity for a fair hearing, the department will report the overpayment and reimburse the appropriate federal share.

Finding 2019-401: Timing of Draws of Federal Funds-Child and Adult Care Food Program

Finding 2019-402: Timing of Draws of Federal Funds—Twenty-First Century Community Learning Centers

Planned Corrective Action:

The State Controller's Office notified the Department of Public Instruction (DPI) of the Department of Administration's (DOA) findings 2018-100 and 2018-101 relating to the timing of draws of federal funds on March 7, 2019. The State Controller's Office in DOA is responsible for drawing the majority of DPI's federal funds. DPI was asked to minimize the number of days between the date that a voucher payment is approved and the payment date, as much as administratively feasible. DPI took steps to reduce the days between the payment interface into STAR and payment date. Starting with the May 6, 2019 aid run, the days between approval and payment were reduced to 7 days or less. It is DPI's understanding that there were additional days before funds were received from the federal government due to overnight batching.

Additionally, on December 2, 2019, the Department of Administration implemented functionality in STAR that changed the initiation of the draw from the transaction approval date to the payment date.

RE: Corrective Action Plan – National Guard Military Operations and Maintenance Projects Extensions (Finding 2019-810)

This memo is the Department of Military Affair's corrective action plan for the finding and recommendations made by the Legislative Audit Bureau (LAB) in the interim memo dated February 27, 2020, regarding the National Guard Operations and Maintenance Extensions (Finding 2019-810).

LAB Recommendation

We recommend the Wisconsin Department of Military Affairs develop and implement procedures to ensure extension requests are submitted as required.

The Department of Military Affairs (DMA) plans to take the following corrective actions:

- In a two-phased approach:
 - DMA will develop an extension request template by March 30, 2020 and submit it to the United States Property and Fiscal Office for approval to ensure it complies with cooperative agreement extension requirements.
 - DMA State Budget and Finance Office will remove delegation from federal program managers and submit extension requests to the United States Property and Fiscal Office using the approved template by July 1, 2020 to ensure that the State has all extension requests in place for transactions that occur after the federal fiscal year has closed.
- DMA will identify any open cooperative agreements that should, but do not have, extension requests on file and submit those to the United States Property and Fiscal Office by July 1, 2020.

The person responsible for the corrective action is Anna Oehler, DMA Budget Director, who can be contacted via email at <u>anna.oehler@wisconsin.gov</u> or by phone at (608) 242-3155.

RE: Corrective Action Plan – Internal Controls over Matching and Reporting for the Disaster Grants – Public Assistance (Presidentially Declared Disasters) Program (Finding 2019-811)

This memo is the Department of Military Affair's corrective action plan for the finding and recommendations made by the Legislative Audit Bureau (LAB) in the interim memo dated March 3, 2020, regarding the Disaster Grants internal controls (Finding 2019-811).

LAB Recommendation

We recommend the Wisconsin Department of Military Affairs modify the query that obtains expenditure data from the State's accounting system so that the query consistently provides accurate data, and develop and implement written procedures to ensure the query is consistently executed using appropriate criteria.

The Department of Military Affairs (DMA) plans to take the following corrective actions:

- DMA will review the query by April 30, 2020 and review all available options to reduce the risk of misreporting expenditures.
- Based on the options available, DMA will modify the query by July 1, 2020.
- DMA will develop a policy and procedure by July 1, 2020 on the usage of the query to ensure appropriate and consistent criteria is entered. The new policy and procedure will be provided to all current employees that run the query and be used to train new employees who would run the query.

The person responsible for the corrective action is Anna Oehler, Budget Director, who can be contacted via email at <u>anna.oehler@wisconsin.gov</u> or by phone at (608) 242-3155.
