## *Top Note Tonics*

While trying to create herbal beers, husband and wife team Mary Pellettieri and Noah Swanson discovered they could make a great Italian-style soda. Top Note Tonics was born. Offering a fresh alternative to super sweet sodas, Top Note Tonics' concentrates can be found in bars, restaurants, and markets across the city.

These tonics are styled after old-fashioned soda fountain flavors and bitters once believed to have medicinal properties and aid digestion. They have half the sugar of standard sodas, are all natural, crafted in Bay View, and are versatile.
