

#SaferAtHome Spring Home Maintenance Checklist - Interior

- While we practice staying #SaferAtHome, now is a great time to catch up on important home maintenance items - follow along with this checklist to get your home prepared for the warmer months!
- Make sure your windows are properly caulked
- Wash the inside and outside of your windows
- Install window screens (and repair any damage)
- Clean and lubricate window channels and door hinges
- Clean ceiling fans, and make sure they work properly
- Clean vent fans, HVAC registers and vents, and make sure ducts are not blocked
- Replace HVAC filters
- Check attics and/or crawl spaces for signs of mold or pests
- Check interior concrete surfaces (e.g., garage or basement floors) for cracks, and seal them if necessary
- Test sump pump by pouring water into the basin
- Clean lint buildup from dryer vents
- Inspect and clean appliances
- Clean range hood filters
- Descale faucet aerators and showerheads
- Clean and check light fixtures
- Test smoke detectors
- Vacuum carpeting and upholstered surfaces (including the cambric on the underside of upholstered furniture)
- Organize!
