Madison – State Representative Janel Brandtjen released the following statement in response to Governor Evers' alias email account:

"Governor Evers' admission of holding a secret email account has many of us wondering if there has been undisclosed information in open record requests due to its association with the name of Hall of Fame Milwaukee Braves player Warren Spahn. I would like to remind the legislature that we have the power of investigation and the power of subpoena. We should be able to request these records from our own data center to ensure the Governor of Wisconsin has not broken the law with open records violations. I look forward to the committee investigation and the 17,000 records under the 'Warren Spahn' account being released for full disclosure."
