Why Many Wisconsin Voters Still Doubt the 2020 Election Results

Public Confidence in the Electoral and Political Process is Essential to Election Integrity

Most voters suspect the news media buried the Hunter Biden story until after the election and think there's a good chance that new President Biden was involved in his son's overseas dealings.

WHY HAVE SO MANY WISCONSIN VOTERS LOST FAITH IN OUR ELECTIONS?

- Mark Zuckerberg invested $330 million for CTCL to fund public elections.
- CTCL selectively awarded grants to fellow partisans.
- No transparency or public input when the Zuckerberg 5 mayors and clerks applied and received initial CTCL grants totaling $8.8 Million.
- CTCL’s largest grants went to the most reliably Democratic cities.
- CTCL provide $1.7 million or 15% of $10.5 million to other Wisconsin municipalities only after a complaint was made by a citizen to WEC.
WHY HAVE SO MANY WISCONSIN VOTERS LOST FAITH IN OUR ELECTIONS? CONT.

- CTCL “grants” were distributed along select, partisan lines.
- In contrast WEC made available CARES Act sub-grants to all Wisconsin election jurisdictions according to an objective, transparent, and fair formula.
- There was ample supply and availability of PPE from WEC.
WHY HAVE SO MANY WISCONSIN VOTERS LOST FAITH IN OUR ELECTIONS? CONT.

• Leftest ideological organizations and their political operatives administered Wisconsin’s 2020 presidential election.

• Political operatives claiming to be “nonpartisan” sought and received direct access to Wisconsin election officials processes and voter data for partisan purposes.

• CTCL’s and NVAHI operatives demonstrated strong, consistent, and public bias in favor of Democrats and ineligible from working as nonpartisan Wisconsin election officials.
“2016, U.S. intelligence agencies determined that Russia meddled in the presidential election to damage Democrat Hillary Clinton’s campaign and sow distrust of American democracy.” 26

“The poll found 74% of registered voters were concerned about “organized voter fraud by political actors hoping to sway the results of the elections,” including seven of 10 Democrats and eight of 10 Republicans.” 26
“Eight of every 10 Republicans, compared with three of every 10 Democrats, said they were ‘concerned that increased voting by mail will lead to widespread fraud in the voting process.’” 26

“The poll also found that eight of every 10 Republicans, compared with four of every 10 Democrats, were concerned about ineligible people casting ballots. Overall, seven of every 10 Republicans, and four of every 10 Democrats, believed any kind of voter fraud was a widespread election problem, the poll found.” 26
Who Runs CTCL?

Meet CTCL Director Tiana Epps-Johnson who was an Obama Foundation Fellow and from 2018 to 2020 was trained by the Obamas to increase voter turnout.
Who Decided What Cities and Counties Received CTCL's Election Grants?

- Johnson interned at the Young Democrats of America and never quit her Democratic party activism.

- From 2010 to 2015 Johnson was the Director of Election Administration for the New Organizing Institute, which according to Capital Research Center had one job, “Elect Democrats” (Capital Research, Jan. 2021)
In March 2015 CTCL and Johnson received IRS tax exempt status.

In April 2015 Johnson attends a tech conference at the Obama White House.

From 2018 to 2020, the Obama team trained Johnson to increase voter turnout during her Obama Foundation fellowship.
A few weeks after Johnson completed her Obama fellowship, she began negotiations for election administration grants with the Zuckerberg 5

The goal of Johnson’s Obama Foundation Action Plan was to increase voter turnout for minorities and Democrats

THE STATED PURPOSE OF CTCL’S ZUCKERBERG GRANTS WAS ONLY A PRETEXT

Four weeks before the Zuckerberg 5 announced their CTCL grants, WEC Administrator Meagan Wolfe sent out a Cares Act Sub-Grant Announcement.

• Administrator Wolfe told the election clerks and commissioners how to apply for additional government funding if they needed more money.

• The State of Wisconsin provided cleaning supplies and PPEs.

SUBJECT: WEC CARES Subgrant Program Announcement

1. SUMMARY. Under the Coronavirus Aid, Relief and Economic Security (CARES Act, the Wisconsin Elections Commission (WEC) was awarded funds on April 6th to help "prevent, prepare for, and respond to coronavirus, domestically or internationally, for the 2020 Federal election cycle." The WEC produced a plan to distribute a majority of these funds to municipalities through the WEC CARES Subgrant program to help them prepare for the remainder of the 2020 election year.

2. PROGRAM DESCRIPTION. The Elections Commission authorized a $4.1 million WEC CARES subgrant program for municipalities to offset pandemic-related election costs. The approved WEC CARES Subgrant program provides a $200 base amount plus an additional $1.10 per registered voter. This means that if a municipality has 100 registered voters, the municipality will receive the base $200 plus $1.10 per these 100 registered voters. That total amount the municipality would receive is $310.00.

3. AUTHORIZED USES. The WEC CARES Subgrant is for pandemic-related expenditures for the 2020 elections. The following are the allowable uses under the WEC CARES Subgrant:

   (1) ADDITIONAL BALLOT SUPPLIES, PRINTING, AND POSTAGE COSTS for higher levels of absentee or vote by mail processes, including printers, scanners, and envelope openers costing less than $5000 per unit.

   (2) ADDITIONAL CLEANING SUPPLIES, CLEANING SERVICES AND PROTECTIVE EQUIPMENT including additional disinfectants, wipes, paper towels, deep cleaning services for polling places pre- and post-election, masks, gloves, gowns, face shields, plexiglass, thermometers and other equipment for staff and poll workers’ virus protection for in-person absentee voting sites, election day polling places and absentee central-count locations.

   (3) ADDITIONAL STAFFING for processing of higher levels of absentee ballot requests and absentee ballot tabulation, resulting in expanded hours, overtime, and associated benefits costs.
5. WHAT IF I NEED SOMETHING ELSE? The WEC CARES Subgrant is a one-time subgrant award to help offset the additional costs that have been and will be incurred as they prepare for elections impacted by the COVID-19 pandemic. Please note that the State of Wisconsin will supply municipalities with cleaning supplies and protective equipment ahead of the August and November elections. If municipalities still have election related costs in those categories, those can be submitted to FEMA or Routes to Recovery for further reimbursement. As well, we have worked with the Department of Administration to understand their Routes to Recovery subgrant to ensure our subgrant compliements theirs and provides municipalities with the maximum access to available funds. Our recommendation is to focus your WEC CARES Subgrant funds toward preparing for the August and November elections as those are funds received immediately after the signed WEC CARES Agreement has been received by the WEC. As well, the WEC CARES Subgrant will cover all election-related pandemic expenditures until November 30, 2020, even if they have not been paid out by December 1, 2020. Per DOA guidance, the Routes to Recovery Grant will be a reimbursement of expenses already paid through October 30, 2020. For further information on the Routes to Recovery grant please go to https://doa.wi.gov/Pages/LocalGovtGrants/COVID-Grants.aspx.

6. HOW DO JURISDICTIONS APPLY? Clerks must read, sign, and return the WEC CARES Subgrant Agreement and Certification form to elections.finance@wi.gov. These agreements need to be returned to WEC no later than September 1st, 2020. Subgrant awards will be issued as signed agreements are received. If you require a paper agreement be mailed to you, please contact the WEC Helpdesk at (608)261-2028.

The Zuckerberg 5 Spent $2.57 Million of CTCL’s Grant to Get Out the Vote

Recommendation I:

Encourage and Increase Absentee Voting (By Mail and Early In-Person Voting)  

Because Zuckerberg 5’s Recommendation I is to “encourage” and “increase” voting, Recommendation I is a clear and obvious GOTV campaign

HAVA forbids election jurisdictions from spending its funds to GOTV as the Zuckerberg 5 did with its Recommendation I
“In 2020, those states will be political war zones. Add that to the twenty states plus the District of Columbia that Clinton did collect and our nominee wins 272 electoral votes. The contest for the presidency may come down to block-by-block street fights in Detroit, Philadelphia, and Milwaukee.”

— David Plouffe, A Citizen’s Guide to Beating Donald Trump

— Philadelphia received $10 million from CTCL, Detroit, $3.5 million; and Milwaukee, $2.2 million
CTCL MONEY WAS FOR IMPLEMENTING THE PLOUFFE STRATEGY

“Early voting is important. The campaign will work hard to nail down as many of these votes as possible, thus leaving more resources available for election day.”

“Registering won’t get you to victory if people don’t then vote. Much has rightly been written about the Democratic challenges the Democratic turnout faced in places like Detroit and Milwaukee in 2016. In 2020 our GOTV (Get Out the Vote) has to be better.”

Facilitating conversations with GOTV non-partisan coalitions to ensure messaging is relevant and resonates to all City of Milwaukee voters, including identifying key target audiences and tactics for each (Voters who are Latin X, African Americans, non-English speaking, and who are no longer on probation or parole for a felony).

— Milwaukee Safe and Healthy Voting Project

Voter outreach and education is also needed to encourage and explain new voter registration.

— The Wisconsin Safe Voting Plan, Recommendation II

**The Zuckerberg 5 use of funds to GOTV violated HAVA**

- Micheal Gableman
"Florida had ... a large number of minority voters who were now eligible to vote. All in all, there was this huge target population of potential supporters invisible (and thus uncounted) to the pollsters. We thought if we could dive in to this "target pool" with enough "human capital" to get enough registered, we could adjust the electorate in our favor."

All five municipalities expressed strong and clear needs for resources to conduct voter outreach and education to their communities, with a particular emphasis on reaching voters of color, low-income voters without reliable access to internet, voters with disabilities, and voters whose primary language is not English.

“How Black Americans Saved Biden and American Democracy”

— Pew Research Center, October, 2020

— Brookings Institute, November 2020
“Black people don’t vote” is not based in data: though they are only 13% of the US population, black voters are among the most stable voting bloc in politics.”

“And 2020 is not an anomaly. Black voters have long pulled their weight relative to other racial groups.”

“Historically Disenfranchised Residents”

Recommendation II: Dramatically Expand Voter & Community Education & Outreach, Particularly to Historically Disenfranchised Residents

All five municipalities expressed strong and clear needs for resources to conduct voter outreach and education to their communities, with a particular emphasis on reaching voters of color, low-income voters without reliable access to internet, voters with disabilities, and voters whose primary language is not English. This outreach is particularly necessary given the voter confusion that ensued in the lead-up to the April

Hi Claire,

It was a pleasure to meet during last week's Safe Voting Plan kickoff call, and I'm looking forward to sending you a more complete implementation plan tomorrow. In the meantime, I wanted to continue the conversation about providing additional staff support.

In last week's call, you mentioned an interest in adding middle-management staff capacity. Noah (Elections Group) has a lead on an experienced elections staffer that could potentially embed with your staff in Milwaukee in a matter of days and fill that kind of role.

I know bringing on a new member to your team is a big decision, so I wanted to make sure you and Noah could connect and talk through your interest and possible next steps. I'll let you both take it from here.

Thanks, Claire! I'll email more complete technical assistance support plans tomorrow for your review. In the meantime, don't hesitate to let me if you have questions.

Rep. Jeremy Thiesfeldt: It's a lot of money, what on earth did they do with all of that it? Do you have an explanation for that.

Administrator Megan Wolfe: I am sorry I don't know. I can provide information on the federal grant but then again we were not involved in anyway shape or form in private grant funding, that would all happen through the municipal government structure, at no point where we privy to that.

Rep. Jeremy Thiesfeldt: OK, well is there something keeping the elections commission from finding that out from particularly these five municipalities that receive such large grants?

Rep. Jeremy Thiesfeldt: OK, did you receive communication from clerks around the state? And I assume you did. I just want to get a confirmation of that. When this Group CTCL which was the Facebook money when they started getting emails from this group, saying hey we can help you with this election, we have funding available. I assume that you received communications from clerks wondering about this group?

- Would you also be able to make the connection with the Milwaukee County Clerk?
- If you could send the procedures manual and any instructions for ballot reconstruction, I’d appreciate that.

On my end:

- By Monday, I’ll have our edits on the absentee voter instructions.
- We’re pushing Quickbase to get their system up and running and I’ll keep you updated.
- I’ll revise the planning tool to accurately reflect the process.
- I’ll create a flowchart for the VBM processing that we will be able to share with both inspectors and also observers.
- I’ll take a look at the reconstruction process and try to figure out ways to make sure it’s followed.

Woodall-Vogg asked Meagan Wolfe for referrals to “other clerks”
Administrator Wolfe sent out this Spitzer-Rubenstein referral to only the Zuckerberg 5 clerks!
Why did Administrator Wolfe “recommend” the CTCL “resource” of Michael Spitzer-Rubenstein?

Why did Administrator Wolfe send out this “resource “to only the Zuckerberg 5 cities?
MEAGAN WOLFE BOTH KNEW ABOUT AND FACILITATED THE CTCL GRANTS

- Wisconsin resident Jay Stone filed a WEC complaint which sought a WEC compliance review of the Zuckerberg 5’s $6.32 million grant.

- Stone filed his WEC complaint on August 28, 2020, more than two months before the November 3, 2020 presidential election.

- Wolfe rejected Stone’s complaint.

- Stone submitted a complaint to the Federal Election Commission that was nearly identical to the one submitted to WEC. The FEC accepted Stone’s complaint and is continuing its investigation.
WOLFE’S STATEMENTS TO THE ASSEMBLY COMMITTEE ON CAMPAIGNS AND ELECTIONS

• Wolfe said in the Assembly Committee hearing that she dismissed Stone’s WEC complaint because “The Commission doesn’t have any statutory authority over private grants.”

• Wolfe dismissed because it was “insufficiency to form” and “lack of probable cause.”

• WEC and Wolfe have statutory authority over voter registration, elections, clerks, election equipment, and the responsibility of the clerks to pay for their municipalities and counties’ election expenses.

• There were countless legitimate probable causes for WEC and Wolfe to review the Zuckerberg 5 grant.

• MICHAEL GABLEMAN

Re: Complaint Filed with Wisconsin Elections Commission

Dear Mr. Stone:

I am in receipt of the complaint filed with the Wisconsin Elections Commission (“WEC” or “Commission”) on August 28, 2020 and the amendments to your complaint filed on September 6, 2020 against Green Bay Mayor, Eric Genrich, Kenosha Mayor, John M. Antaramian, Madison Mayor, Satya Rhodes-Conway, Milwaukee Mayor, Tom Barrett, Racine Mayor, Cory Mason, Green Bay Clerk, Kris Teske, Kenosha Acting City Clerk, Madison Clerk Maribeth Witzel-Behl, Milwaukee Election Commissioners, Stephanie D. Findley, Chair, Carmen C. Cabrera, Jess Ripp and Racine Clerk Tara Coolidge. The administrative rules governing the WEC’s processing of complaints require that I review the complaint and determine within 10 business days whether the complaint is timely, is sufficient as to form and states probable cause. Wis. Admin. Code § EL 20.04(1). I am writing to inform you that I have determined that the complaint is not in proper form and it does not state probable cause that a violation of an election law that the Commission has jurisdiction over has been violated. Complaints filed under Section 5.06 are filed by individuals that are served by local election officials, but you do not reside in any of the municipalities cited in the complaint. Your complaint is related to the acceptance of grant funds by municipalities, but the complaint does not allege any violations of election law that the Commission has authority over to enforce or investigate. Therefore, I am returning the complaint to you without prejudice pursuant to Wis. Stat. § 5.06 and Wis. Admin. Code § EL 20.04(1) and (2).
Conclusion

I am returning your complaint as it is not sufficient to form and fails to state probable cause that a violation of law under the jurisdiction of the Commission has been violated, without prejudice pursuant to Wis. Admin. Code § EL 20.04(3). As required by that provision, I have specified the defects in the complaint (form and failure to state probable cause). As to the information which would be appropriate to cure the defect, only individuals that reside in a municipality served by the individuals named may file a complaint under Wis. Stat. § 5.06. As to probable cause, if you are aware of election laws that have been or may be violated by the individuals named, your complaint could be amended to state those violations of law. Since your complaint and amendments to the complaint are improper as to form and fails to state probable cause, your complaint has not been accepted as proper by the Commission under its administrative rules.

The Commission now considers this matter closed.

Sincerely,

Meagan Wolfe
Administrator

“CTCL specifically targeted its grant money to Wisconsin’s five largest cities because CTCL’s grant increases Democrat Joe Biden’s statewide Wisconsin vote total and enhances Joe Biden’s chances of winning Wisconsin’s 10 electoral votes. … The actual value of CTCL’s $6.3 million “in-kind contribution” is more like a $30 million campaign donation because election officials from Wisconsin’s five largest cities have access to the voters and voting mechanisms that the Biden campaign doesn’t have.”

Today, President Trump outrageously encouraged NCians to break the law in order to help him sow chaos in our election. Make sure you vote, but do NOT vote twice! I will do everything in my power to make sure the will of the people is upheld in November.
Only 9 states (only 1 of which is a swing state - NV). Many protections against fraud, incl signature matching and personal info req'd. About half this many ballots automatically send to voters in 2016, when Trump won, and not a peep from him then.

For our Country to be sending 80 million UNSOLICITED BALLOTS is very unfair and a roadmap to disaster. Even recent small and easier to control elections which
Policy changes at @USPS, plus President Trump's false claims that fraud mars vote by mail integrity, have raised concerns over voting during #COVID19. How can Americans be sure their votes will be counted? @beckerdavidj of @ElectionInnov answers viewer ?s.
Thanks to @brikeilarcn @CNN for the opportunity to this excellent report on the facts about mail voting in the US. If you've got a few minutes, check it out!

Electronic Registration Information Center

• ERIC has not met its goal of cleaning up voter rolls. Nationwide there are many cities and counties that are examples of ERIC failing to purge ineligible voters.25 The Gateway Pundit, Jan. 2022.

• Wisconsin has nearly twice as many voters compared to the number of eligible voters on its voter rolls.

• ERIC has been described as “a left wing voter registration drive disguised as voter roll clean up.”17 The Gateway Pundit, Jan. 2022
• ERIC does a poor job keeping accurate voter rolls because “Democrats and leftists have fought ferociously to prevent the cleanup of State voter registration rolls.”22 The Gateway Pundit, Jan. 2022

• Democrats are using nonprofits to take over the administration of elections
Election Reforms to Instill Voters’ Confidence in Election Integrity

- Remove Meagan Wolfe as WEC Election Administrator for CAUSE
  - Wolfe authorized and encouraged the use of ballot drop boxes which was contrary to Wisconsin statutes.
  - Administrator Wolfe told the Assembly Committee on Campaigns and Elections she had no authority to review the Zuckerberg 5 election grants after a WEC complaint was filed which was contrary to Wis. Stat. 5.06(4)
Election Reforms to Instill Voters’ Confidence in Election Integrity

- Dissolve WEC
- Create a Wisconsin state law to require “accurate voter rolls.” This means no dead people or voters who don’t live where they say they did when they registered to vote.
- Post names and addresses of voters in elections for public review.
- Make all voter rolls and voter lists available to the public free of charge.
- Require all election contracts to include a clause requiring appearance for a deposition if requested.
Election Reforms to Instill Voters’ Confidence in Election Integrity

• Rescind the statute that requires Wisconsin to use ERIC.

• Pass a law that ends Wisconsin’s membership in ERIC.

• Update Wisconsin voter rolls so that only current eligible voters are on Wisconsin’s list of voters.

• Ban the use of private funds to fund public elections.

• Ban nonprofit volunteers, especially out of state volunteers from directly advising or consulting with Wisconsin election clerks and commissioners on the administration of elections.
