Madison – State Representative Janel Brandtjen, Chair of the Assembly Committee on Campaigns and Elections, has declared her request for the decertification of the November 2020 presidential election with the following statement:

“Fair and honest elections are the cornerstone of our democracy and we know that the 2020 presidential election was neither fair, nor transparent. A handful of rogue clerks, along with the Wisconsin Election Commission (WEC), decided they would subvert our election processes with private money, drop boxes, illegal use of the indefinitely confined provision and elimination of special voting deputies. We will never know the outcome of the 2020 presidential election. Tyranny is at Wisconsin’s door.

We have been told for months now that decertification is impossible, meaning there is no downside to cheating in Wisconsin elections. How many more times do we need to endure this election injustice? I will join Rep Ramthun’s call for decertification, as I see no other means of justice for Wisconsin voters. We have been unable to stop WEC - a tyrannical agency that has created voting guidance to clerks while subverting the legislature, and has no regard for existing laws. Our democracy is in jeopardy.”
