Plumer Announces Retirement from State Assembly

“Serving in the Wisconsin State Assembly has been one of the greatest honors of my life. It was certainly nothing my wife Chris nor I had ever planned on, but many years of public service and volunteering on a local level, apparently put us on the radar.

Without question, the incredible people I have met both in the Capitol and out in the district will be this job’s greatest benefit. Thank you for being willing to let me into your lives! I have literally traveled thousands of miles, knocked on thousands of doors, and had just as many conversations with constituents both in district and in the building. There is something heartwarming about standing on someone’s front porch sharing a conversation.

My office has always tried to be a resource for all Wisconsinites, both in and outside the district. I have always ensured that everyone working in the 42nd office has remembered who we work for, and have never taken that for granted. Thank you for that trust!

When our four daughters were young, I worked two and sometimes three jobs so my wife could stay home and provide them with a loving and safe upbringing, something I will never regret. The downside being, I missed a great deal of their extracurricular activities. As they grew into adulthood and started their own families, I promised myself I would not allow that to happen with our grandchildren, but here we are.

In announcing my retirement from the State Assembly, I will be moving on to the next chapter in life. Please know that I will never forget this amazing opportunity you have afforded me. On behalf of myself and my wife Chris, thank you, and may God bless you and the great State of Wisconsin!”
