Representative McCarville Responds to Governor Evers' Budget Address

MADISON, Wis. – Today, Rep. McCarville (D-DeForest) attended a joint session of the Wisconsin Legislature in which Governor Evers outlined his plan for a budget that would benefit generations of Wisconsinites. In his biennial executive budget for 2025-2027, the Governor emphasized his focus on making life better for the working families of Wisconsin.

Following the budget address, Rep. McCarville released this statement:

“Today’s budget address was a win for all of Wisconsin. I am happy to promote the governor’s vision to help ease the burden many Wisconsin people are feeling. With the rising price of groceries and prescription drugs, the Governor has a plan to lower those costs so that all of Wisconsinites can feel that heavy burden of those daily costs being lifted.

I am also thrilled that he is investing in our children with safeguards that will help to ensure they are healthy, safe, and prepared for the future.”
