Rep. Jenna Jacobson Reacts to Governor Evers' State of the State Address

MADISON- Today Governor Tony Evers delivered his fifth Budget Address in the Wisconsin State Capitol, where he shared his plans for the upcoming budget. Representative Jacobson released the following statement:

“I thank Governor Tony Evers for his vital investments in education, environment, and shared revenue which will improve the lives of Wisconsinites for years to come. I commend Governor Evers’ leadership in relation to budgeting for Wisconsin’s necessities.

“The Governor’s address showed how much he cares about everyday Wisconsinites through addressing vital issues such as education, resources for veterans, shared revenue and more . I was thrilled to hear the Governor address important issues to Wisconsinites such as mental health care, education, public safety, and addressing PFAS contamination. Wisconsin is reporting high workforce participation and a record low unemployment rate. Since 2019, small businesses and start-ups have increased by 42%. Thanks to Governor Evers’ agenda of putting working families first, he continues to set Wisconsin up for success in the coming years.

“I congratulate Governor Evers on his achievements in office and I look forward to his future accomplishments in these next four years.”
