Representative Udell Appointed to Governor Evers' Broadband Task Force

MADISON – Today, Representative Randy Udell (D-Fitchburg) announced that he has been appointed to the Governor's Task Force on Broadband Access.

Representative Udell released the following statement:

"I am honored to be selected to serve on the Governor's Broadband Task Force. Expanding broadband in rural and underserved areas of Wisconsin has been a project of mine for years. I strongly believe that fast and reliable internet access is a necessity to staying connected in our modern world — kids shouldn't need to sit in a fast-food restaurant or worry about a library closing when working on their homework, and parents need to have remote access to businesses and healthcare. I'm excited and grateful for the opportunity to see this project through to completion."

Udell worked for twenty-eight years as a telecommunications engineer and broadband specialist at AT&T. He also continues to serve on the Dane County Broadband Task Force.
