Rep. Hysell Responds to Governor Evers' Budget Address

MADISON- Today, at the Capitol, Governor Evers addressed a combined session of the legislature to announce his biennial budget.

Rep. Hysell (D- Sun Prairie) released the following statement regarding the address:

“Earlier this evening, Governor Tony Evers announced a biennial budget that lays out a bold vision for our future- and prioritizes investment in our kids, families, and working Wisconsinites around the state. I commend him for doing right by the people of Wisconsin and proposing the most kid-friendly budget in Wisconsin state history.

“In his address tonight, Governor Evers reaffirmed what Democrats have always fought for: putting our kids and families first. By investing in literacy programs, expanding access to quality childcare, and increasing funding our public schools, we are ensuring that every child has the opportunity to thrive. Literacy and education are the pillars of lifelong success, and we need to invest in the future of the state, starting with our kids.

“Children and families aren’t the only ones that need these investments- it’s property taxpayers. For years, Republicans in the legislature have refused to pay their fair share and forced taxpayers to continue to raise their property taxes to keep the lights on at their public schools.

“Governor Evers has shown time and time again that he listens to the needs of the people. I’m excited to connect with my constituents about how this budget will make investments in our community and benefit the people of the 48th Assembly District.”
