Rep. Jenna Jacobson Reacts to Governor Evers' Budget Address

MADISON- Today Governor Tony Evers delivered his third Budget Address in the Wisconsin State Capitol, where he shared his plans for the upcoming budget. Representative Jacobson released the following statement:

“I thank Governor Tony Evers for his continuation in vital investments which will improve the lives of Wisconsinites for years to come. I believe the Governor’s address showcased his dedication to budgeting for Wisconsin’s needs.

“The Governor’s address showed how much he cares about everyday Wisconsinites through his inclusion of large scale issues including the addition of a \$750 million investment into Broadband Expansion Grants, expand road funding around the state while putting \$380 million for transportation debt reduction, addressing shared revenue, investing \$150 million into local communities for affordable workforce housing, and his promise of creating a 10% middle-class tax cut. I was also excited to hear that Governor Evers K-12 budget will include \$300 per pupil adjustments and additional funding for special education.

“I am grateful for Governor Evers and his leadership in paving the way for a stronger future for Wisconsin”
