GOVERNOR EVERS CHAMPIONS CLEAN WATER PROTECTIONS IN WISCONSIN

MADISON – Today, Governor Evers and the Department of Natural Resource (DNR) released a report entitled, [“The Year of Clean Drinking Water.”](#) Assembly Democratic Leader Gordon Hintz (D-Oshkosh) applauded the governor for his leadership on water quality issues and released the following statement on the report:

“Wisconsin families deserve to know that the water coming out of their tap is clean and safe to drink. The only way to achieve this is through forward looking, proactive strategies like the governor is proposing in ‘The Year of Clean Drinking Water’ report.

“Governor Evers has led the fight for clean drinking water protections in Wisconsin. The report released today lays out a clear road map for our state's efforts to ensure every Wisconsinite has access to clean drinking water. This action plan is the result of months of hard work by the governor’s office and the dedicated staff at the Department of Natural Resources who are addressing water quality issues with a non-partisan, science based approach.

“I also want to thank my colleagues Representative Katrina Shankland (D-Stevens Point), Representative Sondy Pope (D-Mount Horeb), and Representative Gary Hebl (D-Sun Prairie) for their continued leadership on protecting clean water and the environment for the people of Wisconsin.
