Rep. Neubauer Attends Inflation Reduction Act Bill Signing

WASHINGTON - Yesterday, Representative Greta Neubauer (D-Racine) attended the signing ceremony for the Inflation Reduction Act at the White House.

Following the ceremony, Rep. Neubauer released the following statement:

“The Inflation Reduction Act is the most consequential piece of climate legislation the United States has ever seen. But it’s also much more – it’s a job creator, an energy cost saver, a domestic manufacturing booster, and a corporate-profiteering buster.

“This is a huge win for our nation – and especially Wisconsin. This action by President Biden and Congress will address rising costs and bring in new clean-energy jobs to our communities. I am grateful that Congress passed this legislation and there is also more work to do. I am eager to continue in this work, advocating for our state and ensuring that we build a Wisconsin where everyone can thrive, now and into the future.

“It was an honor to join leaders from across our nation for this momentous event. Today, we celebrate this historic milestone. Tomorrow we continue to work for a more sustainable and equitable future for all.”
