## **VanderMeer Announces Middle Class Tax Cut Proposal**

**La Crosse, WI** – Representative Nancy VanderMeer (R-Tomah) joined Assembly Republican colleagues from Western Wisconsin this morning at Marge’s Restaurant in La Crosse to unveil a middle-class tax cut proposal geared toward providing \$340 million in tax relief to working families across the state. The proposal utilizes the state’s \$588.5 million budget surplus to deliver tax relief and 75% of the tax cut benefit would go to filers with incomes between \$30,000 and \$100,000.

VanderMeer released the following statement:

“I’m extremely pleased to be able to announce this proposal today for a variety of reasons. Pro-growth reforms, tax cuts, increasing incomes, low unemployment all have contributed to a very strong economy. A strong economy coupled with sound budgeting and increased revenues have afforded us the opportunity to return a surplus to taxpayers.

A large number of individuals throughout my district have requested that the Legislature work effectively with Governor Evers. I think this is an excellent opportunity to work together and help him deliver on his campaign promise to deliver a \$340 million tax cut, and better yet, this proposal will not increase taxes on farmers or business owners.”
