## Rep. Edming's Response to the State of the State Address

**Madison** – Representative James W. Edming (R-Glen Flora) issued the following statement after attending Governor Walker's State of the State address before a joint session of the Wisconsin State Legislature:

“Wisconsin is currently in a good state and has a bright future on the horizon. More jobs are being created and the economy continues to flourish, as our state unemployment rate is the lowest in 14 years. Through a bipartisan fashion, we sought to make the government more efficient by working to remove burdensome and outdated red tape. Today, we must recognize our achievements, while acknowledging that there is still additional work to accomplish in the future.

“I am eager to work with Governor Walker and my legislative colleagues to address my district's needs. I look forward to developing the workforce for high demand fields within my district and around the state. It is also necessary to continue the H.O.P.E. Agenda to counter the heroin and opiate epidemic and offer assistance to those suffering from addiction.

“Tonight's address focused on the positive direction in which our state continues to move. I hope that my constituents viewed the address and saw that we're working diligently to advance Wisconsin.”
