## Assembly Republicans Unveil Covid-19 Package

On December 1<sup>st</sup> my colleagues and I announced a comprehensive package of bills related to the ongoing Covid-19 pandemic. While this year is coming to an end, we will be prepared to make sure Wisconsin heads into 2021 with a full plan to keep our loved ones safe and our businesses thriving.

With vigorous saving over the years, thankfully Wisconsin's "Rainy Day Fund" is fully funded to help provide for the residents of our state during this difficult time. Our proposal includes plans for vaccine distribution, coverage of vaccines under SeniorCare and Medicaid, a return to work plan for Executive Branch employees, immunity for Covid-19 standards and claims, revising local health officers' authority to close and impose capacity restrictions, prohibits that the vaccine be mandatory, prohibits the closing of churches, require nursing homes and assisted living facilities to have an "essential visitor" policy, require school boards to submit a virtual instruction report each semester and in addition provide the parent of a student that attends 50% or more classes virtually online with \$371, allow for prescriptions to be extended by 30 days, gives credits to UW students who volunteer or work to aid in responding to Covid-19, clears the backlog of unemployment claims and many others.

These proposals will still need to be passed by the State Assembly and Senate and then signed by Governor Evers. I look forward to working together and being able to make an impact in the virus and returning to normal. In the meantime, I still encourage people to take the best precautions for their family.

I would also like to remind everyone to shop local this holiday season and to be prepared in case of accidents or winter storms.

As always, feel free to contact my office with questions, comments, or concerns.
