## Protecting Our Rights and Economy

As we are continuing to get back to normal after COVID-19, there has been one massive barrier in our way: lack of an available workforce. Our rights continue to be under attack by politicians, bureaucrats, elitists, and activists.

On June 9<sup>th</sup> I cast my vote on the Assembly Floor to vote in favor of Assembly Bill 336, which is to decline the additional federal unemployment money. While I understand some of us are still going through hard times, we cannot allow the government to subsidize our entire lives. It is not fair that many people on unemployment are making more money than they would if at their jobs. Right now in Wisconsin the average person is making a little more than \$16 an hour on unemployment. Many employers are struggling to get employees to come back to work because of the added money you can make staying home. Currently, this additional money carries through until September unless this bill is signed by the Governor.

Additionally, this past year we have seen many executive mandates and restrictions on our freedoms. This is why I introduced a bill, Assembly Bill 293, to make Wisconsin a 2<sup>nd</sup> Amendment sanctuary state. AB 293 passed the Assembly with bipartisan support on June 9<sup>th</sup> along with AB 336 relating to federal unemployment benefits. In the past several years, elected officials and candidates to office have been stating that they are in favor of limiting the 2<sup>nd</sup> Amendment and putting restrictions on firearms, firearm accessories, and ammunition. This bill would prohibit state funds and employees from assisting the federal government if they decide to confiscate or ban legally owned firearms.

As your elected representative in Madison, it is important to me that I uphold my oath to the Constitution and to the people of my district. It is my job to be your voice and to defend your rights. While we may not always agree on how to do this, it is vital that we continue to have the rights that allow us to disagree.
