Rep. Billings Receives 2022 LeaderEthics-Wisconsin Award

Rep. Jill Billings and Brian Rude Receive 2022 Awards

La Crosse, WI – At today’s LeaderEthics annual meeting, Rep. Jill Billings was announced as a recipient of the 2022 LeaderEthics Award. Each year, LeaderEthics-Wisconsin recognizes current or former elected officials who exemplify ethical leadership in practice: are truthful, transparent with public information, unifiers and committed to service their entire constituency.

“It is a tremendous honor to receive this recognition from LeaderEthics-Wisconsin, a group that I highly respect. And I am delighted to be recognized alongside former Senator Brian Rude whom I have considered a role model.”

“We are living in a time of highly charged political discourse but I am proud to continue to listen to the people I represent, work hard on their behalf, and connect across party lines to get things done in Madison.”

“I will continue to follow these attributes for ethical elected leadership and encourage both my colleagues in the Legislature and local elected officials to follow these principles in order to best serve their constituents and to create the best working relationships with their fellow elected colleagues.”
